Introduction and History

Introduction

We present here some information that we hope will give you some ideas why we are presenting to you this comprehensive family record of our progenitors. We hope you will enjoy the fruits of our labors.

Why we wrote this Book

After 30 years of teaching in the Virginia classrooms, the compilers decided to retire and spend their remaining years doing some of the things that we always wanted to do. Floyd had some difficulty with his back and took early retirement. This resulted in a slight handicap and has limited our physical activities somewhat. We have gotten interested in family history and research.

The first project was to research the Mason family and in 1986 we published our first book, "John Mason and Mary Ann Miller of VA". We then rewrote the "Ziegler Family Record" and published it in 1990. While doing this we kept files on many other families that we found the family related to. Our curiosity got the best of us and we began to add to these families. Having families that lived in the Shenandoah Valley of Virginia, we found that these family lines married into each other about every third generation. So when you have a record of one family you often have a record of many families.

After publishing the family book of my father, the Mason Family and then rewriting the family book of my mother the Ziegler Family, we plan to continue publishing other family lines as time and resources permit. Looking at many lines of our immigrant gggg parents and finding that the books written on their lines are out of print, need up dating or don't exist at all, we have decided to spend our efforts as writing some of them.

In these times when there is a lot of stress on family relations, the writer is dedicated to activities that will hold up the family-at-large and help our youth see them as "Models" or "Heroes". We have a rich heritage, one in which we can take a lot of pride.

We have tried to keep our expenses minimal and still present enough information to make you proud of your rich heritage. We write our information in a family tree form using the Henry numbering system. You can easily move from generation to
generation with this system. Some will wish we had given more information, such as marriage dates, day and month of birth. In some cases we found these but in the effort to keep the book expenses down, we left out some details. We used the year of birth with our numbering system. It was important to establish the order of birth. In some cases we did not know the year and therefore they may be out of order.

Mistakes

We started out with the previously printed books and then added information that descendants sent us. Much of it was original information submitted on forms that you filled out. We have copied it as we found it but had no way to check the information to see that it was right. It is the best that we could do. We acknowledge that we have made some mistakes and have proofed and reproofed it to get them out. If you find that we have the information incorrectly recorded, we beg your forgiveness. When we found the information given two different ways, we often gave you both ways, like born 1940/41.

It has been a joy to work with this project and to learn to know so many different connections, many that we never dreamed existed. We found that those who worked the most on the project experienced the most joy.

We hope you find our work exciting and that you will help us spread the good news.

If you have been blessed with good fortune, please support the project by buying a few books and giving them to those who are living on limited budgets. A book of one's family makes a very nice gift. Thanks.

How to use the Henry Numbering System and the Index.

We suggest that you start with the index and look for the person that you seek. In some cases you will find many by the same name. In these cases we suggest that you look for the wife by her maiden name. This should take you to the page where they will be if this is in the family tree section.

Once you have found your person, you will likely find them as parents. Look back one generation, using the same number and you will find them listed with their parents.

In some cases they might be listed as children without a + by their number. This means that they were not carried to the next generation for some reason. When a + is given in front
of a number, look in the next generation for the same person and wife or husband and their children. Using the same number, you can move up and down the generations to find one descendant line or family tree.

Here is an illustration in which we take two cousins' numbers and show their relationship. Take two numbers and place them in two columns, on end, to show their relationship. Place number 131 the first digit that is the same at the top and the next number is a brother/sister relationship. From there on they are cousins (coz).

......very easily done....works for anyone...

were 2nd cousins .........Here's how.

Try it.....it's fun.

Numbering System

We have used the Henry Numbering System, revised. The numbering system used gives the reader the generation and the child's number in each case. #1436 would be the number of Col. Henry Miller III and Susan Ursula Harnsberger. The spouse has the same # as the descendent. You will read it as follows, 1st. Column is the 1st. Generation. The 2nd column is the 2nd Generation, etc. A = 10  B = 11 and so on.

The # in that column is the 1st., 2nd, etc. child of the previous child and so on. You will understand this as you begin to use it. The # is used twice, once in the gen. as the child and again in the next gen. as the parent. The + is given if the child is carried forward to the next generation using the same number.
Knight's of the Golden Horse Shoe

There is a monument at the top of the Blue Ridge Mountain at Swift Run Gap near the Skyline Drive to Governor Alexander Spotswood and his party of explorers who on Sept. 5, 1716 discovered the Shenandoah Valley of Virginia. It names the party of men and gave each of them a golden horse shoe. They returned to Williamsburg, VA and it was this land that Adam Miller heard about when he visited Williamsburg, VA.

While visiting in Williamsburg, VA, he heard from some who were with Gov. Spotswood, about the wonderful land west of the Blue Ridge Mountains. It is recorded that he followed the Spotswood Trail to the new land and was well impressed with what he saw. He then returned to PA and brought his family and some neighbors to settle near there. He is said to have first lived in the Massanutten Grant area near what was later called Shenandoah in what is now Page Co. and later moved south to a plot where he built his first house. This house is located just north of Elkton, VA on Rt. 340. It is about one half mile north of the town limits. There is a Historical Marker at the road side stating that it is the land of Adam Muller a first settler of the area. The year that we write this, 2000, both buildings pictured herein are still standing.

It is not clear just where he lived the first few years. The early settlers came to the new land which was owned by Great Britain and was Spotsylvania Co. in 1726. It was the Colony of Virginia. New settlers were hunters, traders, or "Squatters" until they selected the land that they wanted. They then made Petition to the Governor of the Colony for a Warrant. They then must get a survey and then a Patent. During this time they were required to live on the land for three years, build a log house no less than 16 X 24 feet in dimensions, clear the land and make certain improvements. From the time the land is selected Quit Rent must be paid to the land agent. The land agent that the Massanutten settlers dealt with was Jacob Stover, a Swiss Land Agent with Great Britain.

We do not know why Adam Miller chose to work with Joseph Bloodsworth in the purchase of his land. In 1738 Joseph Bloodsworth purchased from Jacob Stover 820 acres of land in the uppermost of the Massanutten Lots and in 1742 sold it to Adam Miller. Jacob Stover died 1741 and Jacob Stover Jr. qualified to settle his father's estate. You will find it on the Stover's Elk Run Patent of 1738 by Harry M. Strickler. At the time of Adam Miller's death he is reported to have owned 1300 acres of land.

Introduction and History

Massanutten

The name of the area had several names in early days. Elk Run and Massanutting Town were often used. It was very valuable and beautiful land. Lived on and hunted by the Indians for likely thousands of years was beginning to be settled by white settlers from Switzerland and Germany. Adam Miller was one of the early settlers. He has been called by many historians as the first settler of the Valley. The name Massanutten is used in early writings. Harry W. Strickler (S-137) writes about some of these early names. He states that the mountain to the west was called Buffalo Mountain and Peaked Mountain. It is the Valley which was a green grassy fertile land was refereed to as "Massa" meaning ground and "Nutta" or Nuga" meaning "Potato" or combining it was Potato Ground. These are Indian words and have been later referred to when talking about the river and mountain. The mountain to the east was known as Swift Run Gap in the Blue Ridge. After 1716 the road through Swift Run Gap west through Elkton has been called Spotswood Trail.

Shenandoah

The Shenandoah Valley encompasses the area between the Alleghany and the Blue Ridge Mountains and the area from Winchester to Lexington, VA. The Shenandoah River runs through this area, the north branch is west of the Massanutten Mountain and the south branch is east of the same mountain. Before Adam Miller and his friends began to settle in the area it was known as an old Indian Trading Post where early settlers traded with the Indians. It is believed that Indians lived along the banks of the river, both branches for thousands of years. Today this is primarily Shenandoah, Rockingham, Augusta and Page Counties. The Shenandoah River comes together at Front Royal, VA. The north branch which runs through Shenandoah and Rockingham Co. and heads in WV and the south branch which runs through Page County and heads in Rockingham Co.

Adam Miller and his Swiss German neighbors lived on the south Shenandoah branch. Indians also were first to call the river Shenandoah - "Daughter of the Stars". Not far to the south and west were the springs and mountain sides which are the source of the south branch of the Shenandoah River.

At the time Adam Miller and his Swiss neighbors which came mostly from PA the area was Spotsylvania Co., VA. It was later Orange, Co., then Augusta and finally Rockingham and Page Co.s

We are indebted to Harry M. Strickler who spent a lot of time and effort to understand this vast area and the early Swill German settlers. He gives students of the area maps and

two books for us to study. He has written two books that the reader may want to read in order to better understand the people and the area.

Short History of Page Co. by Stickler
Massanuten by Strickler

Three maps are given in these two books. They are
Massanutten Grant - 1733 - 5000 acres
Stover's - Elk Run Patent - 1738 1170 acres
Jacob Stover's Patient on Cub Run - 5000 acres

We include for you the Elk Run Patient where Adam Miller lived most of his life. On this piece of land he and his children lived. He first lived in the Massanutten Grant, somewhere around the town of Shenandoah not many miles to the north, until moving to the Elk Run area where he built his first house and later got his deed for the land. The date 1726 is given by historians as the date of his first house. It is stated that he received his first deed of land in 1742 when he received 820 acres of land. 1741 is the date that Adam Miller became a naturalized citizen of America. This means that from 1726 to 1742 he lived on the land as a "squatter" waiting for the Colony of Virginia to issue him his requested Patent for the land that he selected. If you look at the Maps by Strickler and the dates of deeds approved and issued you will note that most of the Swiss German families that arrived with Adam Miller in 1726 lived for 10 to 15 years as "squatters" on the land that they selected. According to the petitions filed they had filed papers for their warrants, were paying quit rent and waiting for their patents to arrive. This was in many cases a period of trial watching for improvements and care to the property in order to show that they would be the type of citizens the colony wanted. Families that did not meet this requirement would be denied their application.

Petition to the General Court of VA

In 1733 a petition to the General Court of Virginia (Colony) was entered requesting help to get Clear title to land which they had bought from Jacob Stover. This was signed by Adam Miller and his fellow Swiss German neighbors. Adam Miller, Abraham Strickler, Mathew Schaulte (Swoop), Philip Lung (Long), Matthew Folk, Mathias Seltzer, Hans Rood (Roads) and Michael Kaufman. Source Annals of Augusta County, VA, page 22. Jacob Stover was a land agent for the area working with Great Britain and the Colony of Virginia. Most of the neighbors of Adam Miller were located in the Massanutten Grant Plat as given by Strickler.

The Problem

1732 another land agent, William Beverly, secured a Grant of 15,000 acres including the Massanutting Town provided the same did not interfere with previous grants made in that section.

It is recorded that Jacob Stover was dilatory in his duties of collecting Quit Rents and sending them on to the Colony officials and issuing the grants to the owners. There was confusion regarding who had title to the land and court cases were being entered into.

Miller - Kite House 1827
Stonewall Jackson's Headquarters
Introduction and History

On April 9, 1984, Mary E. Kite and J. Hiram Kite donated the Miller-Kite house to the town of Elkton. The house was built by Henry Miller, Jr., a grandson of Adam Miller, the first settler in this part of the Shenandoah Valley. The plan and construction of the house give a rich statement of the social and cultural history of the habitants. The architectural quality of the house is representative of the Shenandoah Valley architect-builders of the early nineteenth century. It is known that Henry Miller engaged Samuel Gibbons to do the joiners and carpenters work. The unique brick cornice, the masonry Flemish bond, the delicate carving of mantels, trim and stair rails, all bespeak a pride which was prevalent in the fine yet simple houses of the early settlers.

The large brick house is located on Rockingham Street in Elkton. The original 1827 construction is a two-story, "L" plan structure, five bays wide and two stories high. The brick was made in the area. Most of the windows are the original—nine panes over six panes. The floors are original as well as the mantels in each room. There is a large center hall and an open stairway which goes to the attic. One of the steps has a secret hiding place. The walls are made of plaster over wainscoting and chair rails. Over the front door is a semicircular fanlight with a central keystone and recessed panel intrados, typical of Greek Revival - Federal Period architects. In a long closet beneath the main stairway are initials, smoked into the ceiling with candles supposedly by soldiers staying there during the Civil War.

From April 19th to the 30th, 1862, confederate General Thomas "Stonewall" Jackson had his headquarters in this house then owned by Captain Asher Argembright. At this time Elkton was called Conrad's Store and from here, it is said, Jackson planned his famous Shenandoah Valley Campaign conferring at times with Generals Ewell and Johnston.

Eight days after leaving Conrad's Store, Jackson's troops engaged Federal troops during the Battle of McDowell which resulted in a Confederate Victory. Four weeks later, Jackson's troops successfully defeated Union armies at the battle of Cross Keys, June 8th and Port Republic, June 9th.

The "Valley Campaign" is considered a military masterpiece in one month from May 8th to June 9th, Jackson and his troops marched nearly four hundred miles defeating four separate Union armies including ones commanded by General Banks, Fremont and Shields.

The Elkton Historical Society, Inc. leases the Miller-Kite
House from the town of Elkton and after the restoration has
been completed will be administered by the Elkton Historical
Society, Inc.

The purpose of the restoration of the Miller-Kite House is to
preserve the historical and architectural value of the house
and for the house to be used as a community center available
for organization meetings and other public and private
functions and to provide space for a Civil War museum as well
as early Elkton area history.

Some Early Pictures

The following few pictures are a representative of the Miller descendants. The first few generations did not leave pictures for us to show you. Some of them were Dunkers and they did not have their pictures made for religious reasons. This began to change in the late 1800s.

We did not find many pictures to include before 1900. Here are a few. You will want to use their numbers to see more information in the text.

1. Adam Mueller b 1703 d 1784, s Johann Peter Mueller & Maria Margaretha Ulrich of Labensheim, Germany, m Anna Barbara Koger b 1716 d 1794, da Josias Koger & Ann Lowenberger. Adam and an unmarried sister, maybe named Catrina Miller, came to America in 1724 from Lambsheim, Germany. They settled in Lancaster County, PA. While visiting in Williamsburg, VA, he heard from some who were with Gov. Spotswood, about the wonderful land west of the Blue Ridge Mountains and after journeying to the land, arranged a contract for some land. He then returned to PA and brought his family and some neighbors to settle there. His land in 1726/27 was located in the uppermost of the Massenutten Lots, a tract which is now in Page Co., VA. It is reported that he then moved south a bit and secured land just north of Elkton, VA. We give you a map showing Stover's Elk Run Patent - 1738 for 1170 acres which shows Adam Miller living on a part of this plat. We believe that this was some of the land that had not been cleared up by Jacob Stover and was some that in contest with the agent and the Colonial Government and Great Britain. He seemed to own several lots of land but clear deeds have not been found. In 1742 he purchased 820 acres of land through Joseph Bloodsworth.

At the time of his death he owned more than 1300 acres. Adam Miller was one of the founders of the St. Peters Lutheran Church located just north of his land. It is said that he is buried at this Church, at Bear Lithia Springs with Jacob & Anna Barbara Bear or on his farm. No stone has ever been found.

1. Most of the accounts give this Adam Miller Jr. as killed by the
Indians at the time of the Rhodes Indian massacre in 1764. Only one
account gives this information. Gary Cronbaugh of IA researched
the ancestors of his line of Millers and sent it to me. I have
included it with this record. I only believe that it may be so
as he would have been 36 years old at the time of the massacre.

1. (S-141) page 422 states that Catherine Miller, the daughter of Christian Miller and Catherine Conrad is the one that married first George Moyers and second Daniel Dovel. She gives her will in which she names her daughter Catherine Dovel and names a grandson Joseph Moyers. Also (S-142) page 163 we see George Moyers married to Catherine Miller in 1790 and on page 360 we see Catherine Moyers (widow) married to Daniel Dovel 1800. He was a medical doctor at Elkton, VA, a farmer and a business man owning a sawmill and was a tanner. He built a large house about 1850 that still stands in 2000 where they lived. It is heresy that during the Civil War General Shields, of the Union Forces, spent a week or two at this home. The doctor was away with the southern forces. It is reported that under the cover of darkness he visited his wife and family and returned to his duties. Since that day the family reports that about midnight the ghost of Gen. Shields returns to the house. He is considered a friendly ghost. When Gen. Shields left Mrs. Miller he gave her a revolver to protect herself. This gun is still owned by some of the descendants. They are bu at Elk Run Cem., Elkton, VA.

H. H. Miller, M. D., physician and surgeon, Bunceton, Missouri. Few members of the medical profession in this section of the country have enjoyed better advantages and opportunities than Doctor Miller for becoming thorough and accomplished physicians and surgeons. His father, Colonel Miller, was a wealthy planter and business man of Rockingham Count, Virginia, and in youth, the son was given superior English and classic education, taking a course in the sciences, and in Latin and Greek, qualifications of the utmost importance to the higher attainments in medicine and surgery. After his courses in the New Market and Southwestern academies of his native state, he entered upon the study of medicine, under Doctors Miller and Jennings, at Elkton, Virginia, and when prepared to attend medical lectures became a matriculate in the University of Virginia, graduation from that eminent institution in the spring of 1860. During the winter of the same year he attended lectures in the Medical College of Richmond, and in the following year received a diploma also from that able school of medicine. He had hardly more than completed his professional education when the war burst upon the country with all the lurid glare and deafening thunder of its fury. True to the Old Dominion and to her imperishable traditions, he laid all his hopes and aspirations for a live of eminence and usefulness in his professional aside, and flew to the ranks of her brave sons, then gathering from every mountain and every valley, to defend with his life the sacred soil where Washington lived and died, from the hostile tread of an invading foe. The first year of the war he served as first lieutenant of a company in the 10th Virginia infantry, commanded by Colonel Divans, one of

the regiments, of Stonewall Jackson's immortal command. During this service he participated in all the battles and skirmishes in which the tireless, sleepless, fearless Jackson was engaged, including both the battles of Bull's Run, the seven-days' fight around Richmond, the terrible battle of Cedar Mountain, and many others. In 1862 he was appointed assistant surgeon in the same command, and served in that capacity until the close of the war. On the restoration of peace Doctor Miller returned to Elkton, Virginia and engaged in the practice of his profession. Well schooled in medicine and surgery as he was when the war began, his three years' experience with the suffering and dying of Jackson's noble command, his friends and comrades, was a school, a sad and almost heartrending one, but a school, nevertheless, worth more to the practitioner than a live time spent in the colleges would be. He went into the war a thorough scholar; he came out of it a thorough physician. In 1870 Doctor Miller came to Missouri, and located at Taberville, and in 1873 came to Bunceton, where he has since been engaged in the practice. Here he enjoys an enviable reputation as a physician and surgeon, and commands a wide and lucrative practice. Personally he is a highly esteemed as is professionally. Doctor Miller was born in Rockingham County, Virginia July 11, 1839 and was a son of Colonel Henry and Susan Hansberger Miller, of that county. His paternal ancestors for four generations were natives of the same county. His father was a leading planter of that county, and was also largely interested in the milling business, flouring, grist, carding and sawing. He died there in 1875. After his removal to this county, Doctor Miller was married, April 10, 1873 to Miss Amanda, daughter of Reuben Ewing, one of the pioneer settlers of Cooper County. Mrs. Miller is a member of the Cumberland Presbyterian church, and the doctor is a member of the A. F. and A. M., at Bunceton, Lodge NO. 456.
