DESCENDANTS OF
EDWARDS WEST SR. and SARAH EDWARDS

There are many WEST families and many more branches of each. This branch, covering the descendants of EDWARDS WEST SR., the ninth child of JOHN WEST SR. and his wife, ELEANOR LAWS EDWARDS, is just one branch of this family tree. JOHN WEST SR. was the third child of nine children of THOMAS WEST and his wife, SARAH TRAMMELL. Thomas and Sarah's descendants were presumably born in Fairfax County, Virginia. They migrated first to the area known as Kentucky County, Virginia, which later became the State of Kentucky. About the year 1795, they migrated across the Ohio River near Limestone (known today as Maysville,) Kentucky to the area known as the Northwest Territory. This portion of the Northwest Territory later became the State of Ohio in 1803. The WEST families originally settled in the area which became Adams County, Ohio. As the population and area grew, boundaries changed. The WEST families were instrumental in establishing and settling other early counties in Ohio; namely, Brown, Clermont, Clinton, Highland, Champaign, and Washington. Although many WEST families and their descendants have remained in Ohio, many branches have migrated further westward to areas which later became known as the States of Indiana, Illinois, Michigan, Wisconsin, Nebraska, Kansas, Iowa, Colorado, Texas, Oklahoma, Oregon and beyond. The descendents of Thomas West and Sarah Trammell are found in forty-seven of the present fifty states of America.

Donal S. West, a descendant of Robert and Henrietta Fairfax West, has spent many years during his retirement researching the many and various branches of the WEST families. He has travelled all over the United States to grave sites, court houses, libraries and archives, and has corresponded with hundreds of WEST families. This book is just one in a series that Donal has researched and published. Although many sources are not cited, the information included in the volumes is real. Donal has either seen the birth or death records, gravestones, marriage records, etc. or has seen primary evidence from the respective families which are included in these volumes. The information included in this book is primarily the result of Donal’s research. Documentation of the births, deaths, marriages, census, probate records, etc. for Mrs. Lola E. Lindsey’s research are cited in the Family Group Sheets for her direct ancestral lineage.

Lola Edwards Lindsey, a descendant of John West Sr. and his wife, Eleanor Laws Edwards, through Sarah Edwards and Edwards West Sr.’s daughter, LETITIA WEST, produced this five volume series of the known descendants of EDWARDS WEST SR. and his wife, SARAH EDWARDS, using the computer software program, ROOTS III by COMMSOFT. This five volume series is available at the Allen County Library, Genealogy Department, Fort Wayne, Indiana. Additional copies may be available at a later date in other genealogical research libraries.

These five volumes are dedicated with sincere appreciation and thanks to all of the families who have given of themselves by providing endless family information, photographs, and other documents to these researchers who have compiled this book:

WEST FAMILY COAT OF ARMS

Surnames are derived from occupations, places of residences or from nicknames. The surname WEST quite obviously indicated the direction in which the family lived.

The name WEST comes from France and old records indicate that the forefathers of this family quite possibly arrived in England during the reign of William the Conquerer, the first Norman King of England who was crowned on Christmas Day in the year 1066. Surnames were given to individuals after the arrival of William in 1066 and names were recorded in the Doomsday Book.

The motto "Jour De Ma Vie", which appears on the WEST coat of arms is written in French which could indicate a French origin. Translated the motto reads "Day of my Life".

There were more than thirty-two different coats of arms known to have been used by families named WEST in England. The WEST family lived in almost every county in England and many in Ireland. Nineteen coats of arms have some variation of the fess dancette' which may indicate a common origin, with differences in color and changes to distinguish the different branches of the WEST family.

This coat of arms descends from the Lord De La Warr family. The Lords De La Warr, quartered the West and De La Warr arms, but cadet branches and the West families who were not titled used the WEST coat of arms alone.

Descendants of John West, brother of Lord De La Warr, Governor of Virginia 1635-7, were entitled to use the crest shown on the prior page.

ARMS: Argent, a fess dancette' sable.

CREST: Out of a ducal coronet or, a griffin's head azure, eared and beaked of the first.

HERALDIC COLORS:

Gold, Argent Silver, Sable Black, Gules Red and Azure Blue.

WEST immigrants from England and Ireland who migrated to New England, Pennsylvania, Virginia and South Carolina, such as the WEST families who are represented on the Family Group Sheets described in this series of books on one WEST descendant and his descendants, may have descended from any one of the many WEST families using one of the thirty-two variations of the WEST Coat of Arms. The compilers of this five volume series believe that the WEST family described herein descends from the Lord De La Warr family; however, additional research is needed to validate that the Thomas West born circa 1730 described herein descends from Lord De La Warr in England.
