IN BURKE'S GENERAL ARMORY OF GREAT BRITAIN ARE DESCRIBED THE COAT OF ARMS OF NO LESS THAN TWELVE FAMILIES OF HINTONS. THE NAME WAS SOMETIMES WRITTEN HYNTON. THE ARMS OF THE HINTONS OF "EARLSCOTT" AND "CHILTON FOLIOT."
The compiling of a second edition of Hinton History is due to interest in the history of our family and the related families. A vision and desire to gather together all the records which might otherwise be lost, in the hope that they may be helpful to future generations, was accomplished through you. 

Any family history is like a great body of water, each drop helps. The history of a family is not compiled by any one person but by numerous individuals over the generations, who have contributed their bit of information.

Many persons have given invaluable information on their individual lines, others have assisted in the research and audit of all the lines. To list but a few who have given much time and money to make this book come true for use by all; Reverend Paul Jakes, Dr. Owen Hinton, Dr. Ovida Pay Paul, and Mrs. Ray Edwards.

It is hoped that the publication of this book will provide a stimulus to its readers so that, as a result, sufficient additional information will be supplied to warrant the publication of another edition in the near future. Undoubtedly, some of the lines have only limited data and can be amplified with present information already available from members of that line. Other lines may not be listed because the data was not available at the time of the printing. Please send any additional data you have to the undersigned for future use.

GEORGE WASHINGTON HINTON

Born July 23, 1929 in McLain, Mississippi, into an average family. Joined the United States Air Force July 10, 1947, served over 20 years in the defense of his country, retired at the young age of 38 years. Saw a challenge in writing a book to cover all Hintons throughout history.
GENERAL INFORMATION

Price $10.00

All the money received from the sale of this book will be spent for further research, printing, mailing cost and other general expenses. No money will be spent on labor or obtaining information.

We are in need of researchers and data gatherers. Each one of us owes some of our time to this project to preserve the Hinton and Related Families History for posterity.

Since the descendants of this large family - Hinton, Hentune, Hentun and Hyntun, as it is sometimes called - are to be found in all the United States and in many countries overseas, the writer takes this opportunity to thank all the nice people who sent him information.

This book was compiled only after much research was done by many people. The pieces of information were then reviewed as received and valid information placed in the Hinton Data Bank for the use by anyone. To list a few sources that were used as reference data during the actual preparation of this book is as follows.

Volume I covers the Early English Ancestral Records and all lines that have proven ties to the early Hintons at the time of this publication.

Volume II will be devoted to the disassociated lines with no proven ties to the early English Hintons of 1066.

There are enough recorded facts from the time that the two brothers, Ernald and Ulbert Hinton, came to England in 1066 in the company of Geoffrey de Magnavall of Normandy and fought at Hastings with William the Conqueror to prove this data. Later they both received land grants as promised in Northamptonshire at Donnington Survey in 1070; down to the adventurous life of Dr. John Hinton, son of Sir Thomas Hinton, the faithful friend and servant of King Charles I and King Charles II.

The name of Hinton, in England stands as high for bravery in battle, fidelity of trust, eminence in literature, as that of any family of commoners, that England has produced, and in this country they have steadily maintained their respectability, and have proved themselves, in all their different lines of work. Both the male and female have proven themselves useful and honorable citizens.

The Alumni Catalogue of Oxford shows (58) Hinton graduates from 1500 to 1716; the most prominent being Dr. Sir John Hinton, Court Physician to Henrietta Maria of Orleans and her son King Charles II; Sir William Hinton, Arch Deacon of Coventry; and his son Samuel Hinton, D.D., the scholarly Dean of Litchfield.

The word "Hinton", in Anglo Saxon, means "old town"; and is given to at least a dozen different parishes in England. The Family of Hinton, however, took its name originally in the early 1500's, from Hinton-Cutton, or Hinton-Breckly, as it is variously called, in the north-eastern part of Northamptonshire; and Hinton-Woodford in the north-western part. The Hinton-Hentnie-Hentun-Hinton people were known in the past as a great, adventurous people with large families, a fighting "Viking" type people who knew what they wanted and were willing to fight for it. Also this lineage has a greater percentage of doctors than the average family line. The answer to this may be due to the emphasis placed on education by Sir Thomas Hinton and his son, Dr. Sir John who passed this emphasis down through time. Education is the easiest way to get ahead, it also has been considered the greatest status symbol of all time.

**Battle of Hastings - 1066**

A little about the Norman people. It is said they came from a little country on the French coast named Normandy. Previous to this, it was also said the Normans came from the lowland countries of Europe. Better known as the "Horsemen" or "Vikings", at one time they were also known as "The Sea Kings", a term which is applied to a man of royalty, who took by right the title of King when he assumed the command of men of lesser power. These men were Scandinavian adventures who, by daring, hardihood and endurance fought their way to thrones, establishing kingdoms, principalities and dukedoms in all parts of Europe and as far east as southern Russia and as far west as Great Britain.

The Battle of Hastings in 1066, commonly called "Conquest of 1066" had the most important influence on the Saxon manners, language and the present English Constitution, which had hitherto escaped with little change and is, therefore, one of the most important epochs of the great English history. This battle, even though it was of short duration, had a great impact on changing the world we now live in.
According to history, this battle was very well planned, and each man was to receive land or money as an incentive to fight. William the Conquerer promised each leader a large land grant in England, if they were victorious. This was an extra incentive to the leaders to push the warriors to their fullest extent.

A few facts about the battle itself. The Norman Conquest of England was only one very short battle, called Battle of Hastings. It was fought on October 14, 1066 on Senlac Hill, only a few miles from Hastings, between William, Duke of Normandy and Harold II, King of England. Harold's fortified position was attacked at 9:00 a.m. by the Norman Army in three divisions, strong in cavalry and archers, the center led by William in person. The English made a stout resistance with their battle axes and other weapons, but part of them, pursuing William's fleeing Bretons, the whole body was led into a trap by the feigned retreat of many of the Norman forces. The disordered ranks of the English were easily overborne by their enemies who stormed and carried the hill. The death of Harold, who was pierced in the eye by an arrow about sunset, disheartened his men and they shortly dispersed. Battle Abbey was erected by William on the field where Harold fell and portions of it still exist. Among the literary treatments of the event are two poems by Chatterton. Battle of Hastings groups are about sixty-four miles southeast of London on the English Channel. William prepared his campaign with great care. At the most, William had 12,000 troops. The battle ground was only an 800 yard front. The battle began with Norman archers opening fire when within bowshot and accomplishing considerable execution. A wave of Norman Infantry, however, broke against the shield defense. William then sent in his cavalry, but this, too, broke on the shield wall. In the final phase, infantry and cavalry under archer cover fire made a concerted attack and broke through. This is when, an arrow having pierced Harold's eye, he fell mortally wounded. At that time, William could see that the battle was won because of poor planning by the English. After the battle, William the Conquerer built a one story castle on Senlac Hill to show the world where the Norman Invasion took place. This castle is now in ruins, but you are still able to see its resting place.

A few changes which took place in England shortly after the conquest of 1066 were: (1) a House of Parliament was established in England; (2) The present Judicial System the world is now using was set up by the Normans in England; (3) The Feudalism System of rulers was discontinued; (4) Many other great changes were made for the betterment of the world we now live in.

Two Hytton brothers fought in the Battle of Hastings, along with many other Normans, but the Hytton brothers were leaders of the men, serving in the company of Geoffrey de Mowbray. They both received land grants in Northamptonshire at Donningday Survey in 1070, in accordance with the promise of William the Conquerer.
The Hinton Family contributed many great and famous people to the world; among these were:

Two Hinton brothers who were among the leaders of the Battle of Hastings in 1066.

Ulbert de Hinton, at Longesday survey (1070), owned the estate called Hinton-Woodford (240 acres) which was granted to him for his part in the Battle of Hastings. As you can see, lots of famous people are left out. So dig out your old bibles or documents and send me the data to help fill in many of the blank spaces. Also, several names and dates are missing. I am sure you can help out somewhere. The name of Hinton is a name to be proud of. Let's get the data complete for all mankind to read. Please send it to me for future documentation.

**ENGLISH LINE 1660 - 1700**

Under the English rule, the Hyntons and Hintons prospered. Large families and large fortunes were common among the Hyntons (Hintons). It is said that some of them married into the royal family of that time. In the late 1700s, it is said that some of the Hyntons changed their name because they were in high politics, so they made up an English name - Hinton. This made it easier to deal with the public.

The Hyntons and Hintons served under many kings between 1066 and 1700. The English people, as we know them, are of at least four different blood lines: Neolithic, Celtic, Roman and Teutonic. The Neolithic Race ruled from the 7th to the 3rd Centuries B.C.; the Celts ruled until the 5th Century; the Romans were the rulers for many years. The Teutonic came in the 11th Century (Norman French). It is said that King Edward (A.D. 1066) had Hynton blood in him. He was a Viking. The estates of "Farscott" and "Chilton Foliot" were passed down through generations. Standing today, in the South Aisle of St. John's Church in the Town of Pemborough, County of Wilts, is a monument to Sir Anthony Hinton, born 1630 - died May 7, 1702. His son, Sir Thomas Hinton (born 1574 - died February 1, 1635), was a knight and served two kings. He was the first Gentleman of the Bedchamber to King James I of England. When King James I died, his successor, King Charles I, was served by Sir Thomas Hinton in the higher position of Privy Councillor. Through his high position, he was able to invest in some government projects. One of these was the Jamestown, Virginia Colony, London Company. He was the largest stockholder of the company. He became the richest commoner of his time. Because of his investments, he had to send overseers to the new land from time to time, to check on their progress. Many of these overseers were Hintons. He also sent his son-in-law, Captain Samuel Astrophs (1576-1637), son of Tobias Astrophs, the 26th Archbishop of York. Captain Samuel Astrophs later became Governor of the State of Virginia.

In Burke's General Armory of Great Britain, are described the Coat of Arms of no less than twelve families of Hintons. The name was sometimes written Hinton, Hentune and Henton. The Arms of the Hintons of "Farscott" and "Chilton Foliot" are "Per Fesse indented ermine and sable, six fleur-de-lis-counterchanged, Gules - an eagle's leg erased, crowned by a serpent". These armorial bearings correspond with those of Sir Thomas and Sir John and of the Hintons of the New World.

The family wealth had increased very much over the years. It has been said the Hintons were probably large sheep farmers, supplying wool to the weavers at Brondford where most of the famous broadcloth was made. The house in Stainswick still stands, the Hinton Family owned it until 1709 or even later. Presently it is owned by the Magdalen College, Oxford. It is a lovely old dwelling house a great deal of which is Elizabethan. It is of gray stone with a beautiful stone tiled roof coming down low at the back. It is a long low house and almost gives the impression of being two houses for the southeast corner is certainly older. There is a piece of wall some six or seven feet in length standing at the end of a garden path and on this is an urn of carved stone of an early date. Such a vase as is often seen on the gate pillars of a big estate. The end wall of the house which faces this has two brick oval windows with stone heads above them.

Thomas Hinton of Bourton the oldest son of John had one son if not more, his name was John who died in 1661. He leaves little known data as of this writing. John had one son if not more, his name was Thomas who married Elizabeth. She was born 1627 and died 1694. They had one son (name unknown) who was born 1658, maybe others not known at this time.
The will of Jonn Hinton, died January 7, 1550, who married Joane Froncklyn under the reign of Edward VI left most of his property to his nephew John the son of Richard. This is strange because his wife was still living with two sons who receive only a token of the large estate. No other data is known of his nephew John.

Anthony Hinton, of "Earlscoate," the son of Thomas Hinton and Anne Oddard inherited the manor of "Earlscoate." Anthony was Justice of Peace of Berkshire. Anthony married late in his life to a young girl Martha Wamford, the daughter of John. They had a large family and he died and was buried in St. John Church, Wanborough, Wiltshire. His grandson Sir Anthony erected a monument in his honor which still stands today, it says "Anthony Hinton, Esqr. OB May 7, 1598, aged 66, Grandfather to Mr. Hinton, Privy Councillor to King Charles I." The manor of "Earlscoate" is strangely beautiful and peaceful, it is surrounded by its somewhat un-prepossessing farm buildings. It was moated during King Edward VIII reign when he would spend time there. The ponds still remain on two sides. There are curious (not local) stones in and around the ponds which are said to be of Druidic origin. There are some beautiful brick and timber work on the west side which is evidently older than the rest of the structure. The house is mentioned in the book Kenilworth by Sir Walter Scott. There are secret passages running all through the upper part of the house. These secret passages led to many ghost stories. It is also said that there were priests who used these passages and hidden rooms to celebrate mass in the days of the Reformation. Anthony carved his own and his wife's initials inside the cupboard door in his bedroom. Today the "Earlscoate" is still standing. Anthony and his wife Martha were very generous, almost every church in Wiltshire during their time received beautiful gifts. It appears this branch of the Hinton family secretly still supported the Catholic church even though King Edward VIII forbid his statesmen to support this church. Listed are their children:

Anthony Hinton was born 1595 and married Mary Cresham June 22, 1619, died July 10, 1647. Sir Anthony had at least two sons if not more. They were Thomas Hinton, born 1620, baptised April 9, 1620, died 1681, and Anthony Hinton born 1621, who had a son Thomas.

Sir Anthony was knighted at Oatlands by King James I July 4, 1627 and in 1634 was bailiff of West Minster when he helped to assess the money for a new ship costing over 4,000 pounds. Sir Anthony himself was a master and the ship owner of the Barque "Anthony" as is mentioned he was a merchant adventurer. Sir Anthony received 500 pounds from King Charles I for a diamond ring which the king presented to Abbot of Scaglia Ambassador extraordinary from the Duke of Savoy, August 22, 1628. Sir Anthony is listed as a man of considerable wealth and power.

Anthony the son of Sir Anthony who was born 1621 was matriculated at Queen's College, Oxford on November 15, 1635 and became a student at Gray's Inn.

Thomas Hinton born 1660 (1)20-9-1693, son of Sir Thomas Hinton and Catherine Palmer. As far as we know he did not go to Oxford like most of his relations. In fact no records have been found of him until we hear of him as a member of the Council of the Governor of Virginia, (which his father was the largest stockholder). The next we hear of him is concerned in a case before the Privy Council December 11, 1638, investigations of charges against Sir John Harvey, Governor of Virginia. The charge against the governor was not sustained and Thomas Hinton was so disgusted that he resigned and returned home to Chilton Abbott. He first married Anne Busher (Bosler). They had one son named "Palmer" who went to Virginia in 1642. He married second Elizabeth Farrar, daughter of Sir Robert Farrar who was a business partner of Sir William Hinton his brother. Thomas and Elizabeth had a son named "Farrar" who also went to Virginia in about 1660. See the Christopher line for the current lineage.

Lady Mary Francis Hinton, the daughter of Sir Thomas Hinton. Much of this data was provided by Mrs. Mildred C. Hanna, U.S. 6th Street, Clay Center, Kansas. Lady Mary as she was known was first married to Nathaniel West, he was born in England, came to the new world and settled. Later died in Virginia. Her second husband was a rich merchant by the name of Colonel Abraham Peirsey. Her next marriage was arranged by her father. He offered Captain Samuel Matthews the son of Sir Tobias Matthews Sr., 6th Archbishop of York, and Lady Frances Barlow, a very high post in his company, in the "New world" for the marriage to Lady Mary.
26. Lady Mary Francis Hinton (continued). Sir Thomas Hinton asked King Charles I to promote Captain Matthews to Military Governor of Virginia. This was accomplished and Lady Mary Francis Hinton with her family and her new husband Captain Samuel Matthews came to Virginia. They settled in "Denbigh", Warwick County, Virginia. Listed is her children known to me by family:

26. Lady Mary Francis Hinton (B)-1601 (D)-1675 (H) 

27. Nathaniel West Jr. (B) (D) (H) 
Second Family (M) Col. Abraham Peirsey (B) (D)-1616-1656

He had two known daughters by another marriage which they care for.

26. Elizabeth Peirsey (B)-1611 (D) (H) Captain Richard Stephens (B) (D)

29. Mary Peirsey (B) (D) (H) Captain Thomas Hill (B) (D)

29. Mary's Second Family (M) Sir John Harvey (B) (D)

26. Lady Mary's Third Family (M) Gov. Samuel Matthews (B)-1592 (D)-1659

27. Lt. Col. Samuel Matthews (B) (D)-1671 (H)

Born in "Denbigh", Warwick County, Virginia. Was a member of the Assembly in 1652, and in 1655 was a member of the Colonial Council. Had a son Captain John Jr., died 1702, who married Elizabeth Tavenor and had a son Captain Samuel Matthews Jr., died 1717. He married first, Elizabeth Brinion, second Katherine Tunstall, and third Margaret (?). Governor Samuel Matthews of Georgia and Judge Henry C. Green Sr., are both descendants of this line.

27. Captain Francis Matthews (B)-1625 (D)-1675 (H)

Born in "Denbigh", Warwick County, Virginia. Was a member of the Virginia Militia, was in the Hall of Justice. He had a son Baldwin, born 1670, married Mary Digges and died 1737.

26. Sir Doctor John Hinton, the son of Sir Thomas Hinton and Catherine Palmer. Born July 10, 1603 at Chilton Foliat, baptised July 17, 1603 at St. Martins Parish, entered Exon College 1618, matriculated Queens College, Oxford, November 9, 1621, aged 18 graduated B.A. 1625, M.A. 1628. He studied medicine at the Westminster Chemical School, 1625-1629. He appeared before the Board of Censors of the Royal College of Physicians for examination for the special license given by that body. He presented letters from his father's old friend Henry Pierrepont, Marquess of Dorchester, one of the principal Secretaries of State, showing papers where he had also been appointed Physician to Ordinary to the Queen, Henrietta Maria, wife of King Charles I. Later he was appointed Field Surgeon, Royal Army in 1642. He was knighted by King Charles I for his services during the great plague. Dr. Hinton married, while a student at Leyden, a lady whose name was Elizabeth Mike.
26. Sir Doctor John Hinton (continued). He resided at Fulfwood house between 1645 to 1655 at which time his wife died, then he moved in a house in St. Bridges Parish where his only daughter Sarah kept house for him. There is a very good sketch of Dr. Hinton in Monk's "College of Physicians", Volume I, page 329. His "memoirs" of which only 100 copies were printed in 1814 is also very good reading. If there is one man who deserves credit for establishing the name in the New World, he certainly does. His family supported the company which his father owned. He had a sister, a brother, three sons and many grandchildren who came to the New world to settle. Also, Dr. Hinton came to the New world for the first time in 1682 with his brother-in-law Captain (Governor of Virginia) Samuel Matthews. Dr. Hinton returned to England to report his findings to his father stating something like this: "Methinks that new land or yours is nothing but a land of milk and honey". From time to time, his father sent others, all of whom brought back reports similar to that of Dr. John Hinton. The current lines of Sir Dr. John Hinton are listed as William, John and James. The sons of James Hinton, the son of Dr. John Hinton, also the lines of Thomas and Richard his sons that settled in Maryland in 1666. It is also stated that Dr. John Hinton married Catherine Vander Ruckle after the death of his first wife but no proof of this writing. In 1666 there came to Maryland his sons, Thomas, Clement and Richard. From Thomas descended the Hinton's of New York and Pennsylvania. Richard settled in Virginia and Clement died unmarried. Listed is the children of Dr. Hinton, all were born at Leyden, England:

27. Thomas Hinton (B)-1638 (D)-1700 (M) Sarah Reynolds (B) (D)
27. Rev. Edward Hinton (B)-1640 (D) (M)
27. Richard Hinton (B)-1641 (D) (M)
27. James Hinton (B)-1642 (D) (M)

James children James, John and William are listed under their lines.

27. John Hinton (B)-1643 (D) (M) Joan Maglin (B) (D)
27. Clement Hinton (B)-1645 (D) Never Married
27. Sarah Hinton (B) (M)-11-1679 (M) Maybe Never Married

Sir William Hinton, son of Sir Thomas Hinton and Catherine Palmer, born Earlescope "Chilton Pollot", England in July 1605, baptised July 25, 1605, married Mary Poplar, and died 1673. Sir William Hinton was a partner of Sir Robert Farrar, who also was a member of the Privy Council in the reign of Kings James I, Charles I and Charles II. His son William was a very prominent man in the Civil wars of England. This son William was Sir Edgar Hyde's (Commander in Chief of the King's forces) right hand man. A great deal of correspondence between Sir Edgar Hyde and the King talks of Captain William Hinton, the son of Sir William Hinton. Listed is his children known to be:
27. Thomas Hinton (B) (II) (II)  
27. Capt. (Navy) William Hinton (B) (II) (II) Elizabeth Rowe (B) (I)  
28. Phillip Hinton (B) (I) (I)

27. Anthony Hinton (B) (I) (I)  
28. Dr. Anthony Hinton (B) (I) 1539-1672 (II)  

Dr. Anthony was a Doctor of Physics and was Treasurer of St. Bartholomew's Hospital. His sermons were preached in St. Paul's.

Listed are some tidbits from Burke's History of Commoners or associated Hinton data at the time of publication:  
A. At Godfords St. Peter, which is not far from Hamberou, there seems to have been a large family of Hintons. Listed are at Hintons in the parish registers.  
B. Anne Hinton, daughter of John, baptised 1630.  
C. Anne Hinton, daughter of Phillip, baptised 1650.  
D. Anne Hinton, married John: 1672.  
E. Lawrence Hinton, received his B.A. degree 1614, his B.D. degree 1624. Lawrence was later Prebendary of Winchester and died at Chilbolton in Hampshire which he was Rector in 1675. Lawrence stated he was the son of Thomas Hinton of Bourton. Who was this great Hinton?  
F. A William Hinton of Wiltshire was at Oxford in 1394.  
G. Francis Hinton was one of the principle inhabitants of London in 1420. He lived at St. Mary Magdalen Parish.  
H. Edward Hinton married Jane Pincake around 1700.  
I. Reverend A. Hinton was Rector of Bourton in 1517.
J. John Hinton who was Recter of Newbury married Anne Knight and had a son Edward who later became Recter of Cheering in Essex, 1641. Edward and two children both of whom married their cousins. John married his cousin Martha Hinton and Mary married her cousin John Hinton, Recter of Chawton in Hampshire.

FIRST HINTON TO THE COLONIES

As previously stated, Sir Thomas Hinton (1574-1633) was the first Hinton to set foot in the New World. After a short stay, he returned to England and invested large sums of money in the colonies. The Jamestown Colony was his largest investment and he was also the largest investor in this venture. Sir Thomas Hinton talked to King James I and asked him to send a military man to Jamestown to be the overseer, recommending his son-in-law Captain Samuel Matthews (1595-1660) who married his daughter Mary Francis Hinton (1603-1633). They left England in 1602 with her brother, Sir John (1603-1633). In 1604, Sir John Hinton returned to England to report his findings to his father. The ship lost in 1604 showed that two Hinton brothers came to the New World. They also were making an inspection for their father, Sir Thomas Hinton (1597-1633). They were Thomas Hinton (1600-1663) and his brother, Sir William (1605-1671). In 1617 they returned to England. In 1619, three sons of Sir John Hinton (1603-1652) came to Maryland to gain fame and fortune. Their names were Thomas (1638-1700), Clement (1645-1709) and Richard (1644-1709). According to the story told by Thomas' descendants, the Hintons resided more in New York, Philadelphia and the Northeast. Clement died unmarried, Richard, it is said, settled in Virginia to be closer to his sister, Mary Francis, who married the captain and later Governor of Virginia, Samuel Matthews. Richard is believed to be the progenitor of the Hintons of Virginia. Back in England, there still remained many Hintons, one of whom was Sir James Hinton (1640-1709). He was the son of Sir John Hinton of whom we have spoken many times. On this James Hinton, we have been unable to contribute very little data, only who his father was and that he was born in 1600 in England. He attended the best college that time, Oxford College, later called Oxford University. As I know he had at least three sons. If he had any daughters, we are not aware of it. All three known sons came to the New World, bringing with them their families, in the year 1710. Their names were William ( ), John (1675-1735), and James ( ). These three sons of James Hinton are said to have been the progenitors of Hintons throughout the southeastern part of the U.S. They landed and settled in Chowan County, North Carolina. They earned their livelihood by farming, which was made easier with the help of their large families to maintain their land. They had extra large families, as did the future generations. In 1700 it was claimed that the majority of Hintons were to be found in the southern part of the United States. In the 18th Century, the movement of people in the United States has been so vast that now you may find Hintons descendants not east, in the North or possibly one might be your next door neighbor. Listed above were not the only Hintons that settled in the colonies, but many others could have come, data is needed if so.

WILL AND TESTAMENT

This will was written in 1657. As you can see, notices were passed down just as any other common property. One item not normally listed in the wills at that time is listed in the last part of these lines.
This will proves that many of the southern slave owners were not as cruel as some of the stories have indicated.

THE THREE BROTHERS TO THE NEW WORLD

It has been passed on by many, even by some not really knowing whether or not it was the truth as the story goes: There came from England three Hinton brothers, then the story begins to vary in detail somewhat. Some say that they settled in North Carolina, and others say they settled in Virginia and still others claim Philadelphia or New York State. These stories are not far from being correct. We know that in 1663 three brothers, Thomas, Clement and Richard (the sons of Sir John Hinton 1603-1663) came to Maryland, as we have stated before, one settled in Philadelphia and New York State, one other settled in Virginia and the other never married so we know not where his body was laid to rest. In the next paragraphs to talk of still another three brothers who came to the New World bringing with them their entire families and belongings. Their names were William, John, and James (the sons of James Hinton and grandsons of Sir John Hinton 1603-1663), who came in 1729 to Chowan County, North Carolina. It is said these three brothers were men of prominence, wealth and had widely spread connections both in the New World as well as the Old World.
One of them, John, was traditionally called "Colonel", but this title had no military connection. But during that period of time a southern gentleman of means could take the title of Colonel if he so desired. This sometimes showed added respectability. In many cases few records were preserved and efforts to trace the genealogy seems quite a hopeless task at times, but in all cases we try to be 100 percent accurate. If we have any doubt of the accuracy of the data we omit it completely or so state we have doubt.

James Hinton, some of Sir Dr. John Hinton and Elizabeth Dilke, born 1642 at "Fullwood Rents" Leyden, England. Matriculated at Queens College, Oxford, March 10, 1659, aged 17. Admitted to Lincoln Inn March 10, 1659. He was called to the Bar 1666, appointed Secretary to the Board known as the "Farmers of the Revenue" for Ireland. The name of James wife is not known at this time. He had three sons who came to the New World, settling in Chowan Precinct, North Carolina. The next three chapters will be about his three sons.

WILLIAM HINTON'S LINE

William Hinton, born in England, died 1737 - Chowan County, North Carolina, the son of James Hinton. As it appears he was the oldest of the three sons who came to North Carolina in 1710. Even though we have no date of birth on any of them, except John, who was born 1673. He and his wife Elizabeth Blanchard both left wills. They had eleven children. Listed below are their names and their families. This line needs much research, please help.

James Hinton's Line

James was born in England and came to the New World with his brothers William and John with their families in 1710, or before. James died 1761 in Chowan County, North Carolina.

James was named after his father James Hinton 1742-1800. Just as his father before him, very little information is available on this heritage. We presume that there are many Hintons in Georgia and the rest of the southeastern part of the U.S.A., that are related to this line. There is only a slight knowledge of this line, please help us add to it.

Some people feel James Hinton was in Pennsylvania in 1701 through 1710, and in 1710 he joined his brothers in North Carolina. They also believe he was the oldest of the three brothers. James was a large land owner, the records show he bought land April 27, 1716 (125 acres) on the south side of Bennetts Creek, Chowan County, North Carolina. He bought more land from his brother William on January 20, 1716. On April 4, 1722 he was granted (350 acres) on Bennetts Creek, Chowan County, North Carolina. He purchased (100 acres) from the Chowan Indians for 50 pounds, January 30, 1735. Many more land deeds are listed where he has bought land. There has been more research into this line than any other Hinton line in America. Any genealogy book that contains Hinton data refers you to this great line. A job well done goes out to the many fine people that have given many hours of hard work to this great task. John Hinton was a man of prominence, wealth, and had widely-spread connections, therefore, he was traditionally called "Colonel". He married Mary Hardy, the daughter of John Hardy, who was a descendant of Sir Robert Hardy. After the death of John Hinton on June 6, 1731 his wife Mary married a wealthy man by the name of Thomas Holliday. They had children which settled in Hartford, Connecticut, and almost as always, the children of the first marriage do not agree with the ways of the new family. So as it was with Malachi the youngest son of John Hinton. He was only one year old when his father died. At a young age Malachi moved into the home of his brother (Colonel John Hinton of Wake County, North Carolina). They had (II) children as listed with their families and descendants.

1. Col. John Hinton, the son of John and Mary, married Grelzie Kimbrough, the daughter of Buckley Kimbrough. It has been stated that he was born in England and that he is the oldest son, but records now prove that false. He was born in Chowan County, North Carolina and died in Wake County, North Carolina. He settled in Johnston County, North Carolina. (Later Johnston County was divided and Wake County established by Colonel Hinton.) Six miles east of the present town of Raleigh, near the banks of the Neuse River. He took up many thousands of acres of land by grant from Earl Granville. In some places the property ran four miles both to the east and west of the river. One tract known as "The River Plantation" is still owned by a descendant of the Hinton name. Many early homes built by the Hintons in 1700's and 1800's still are in a good state of preservation. When Wake County, North Carolina was established in 1770, John became Colonel of the Colonial forces in the new county. He participated in the Battle of Alamance, May 16, 1771, against the regulators and his bravery was referred to by Governor Caswell in a message to the Legislature. Col. John held many high offices, one was to divide Johnston County, and establish the Wake County boundaries. The plantation that Col. John called home was "Clay-Hill-on-the-Neuse", it is still standing in the town of Millburn, six miles out of Raleigh on route 64. Listed is their children all born in North Carolina:

Lt. Col. Joel Lane was in service under Col. John Hinton. He married two different daughters of Col. John Hinton. Martha was the first and she died in 1771, then he married her sister Mary Hinton. Working with Col. John Hinton, Lt. Col. Joel Lane became very powerful. He assisted in setting up the county boundaries of Wake County, North Carolina under Col. John Hinton.
Joel Lane later served in the North Carolina House of Representatives for thirteen terms. He also became a judge of North Carolina in 1771. Governor Swain says this of Lieutenant Colonel Lane, "He is a rare specimen of architectural elegance" because he enjoyed building cities, towns or what have you, he had no time for his own. His house was small and plain because he tried to live with the common people. Joel Lane has been criticized because of his sale of land for the location of Raleigh, North Carolina, they said it seemed a little illegal and bad practice at the expense of his father-in-law, Colonel Hinton. This sale not only broke relations with the Hintons but it cost him his seat in the House of Representatives. He died in 1795, broken hearted. His grave was plowed over and obliterated by Mr. Peter Brown, a Scotchman and a lawyer, who acquired his homestead by purchase. He had a total of (12) children, six boys and six girls.

Thomas, the second son of Sir Thomas Hinton and Mary born at Chilton Foliat on April 8, 1600. It appears he did not go to Oxford like most of his relations had in the past. He came to the New World with his brother Sir William Hinton, in 1634 to check on his father's investments (Jamestown Colony). They remained there until 1637. It appears Thomas was a self educated man, because he became a member of the Council of the Governor of Virginia during his stay in Virginia (1634-1637). The next we hear of him is in a case before the Privy Council on charges against Sir John Harvey (Governor of Virginia 1635). The charges that Thomas brought against the Governor was not sustained and Thomas Hinton was so disgusted that he resigned and returned home to Chilton Foliat.

He married first Anne Bosier from Beausire, England. His second marriage was, (arranged by his family) to Elizabeth Farrar, the daughter of a good friend Sir Robert Farrar, who was his uncle's business partner. Thomas had a son by each marriage if not more, Palmer Hinton came to the New World in 1653, his half brother Farrar Hinton also went to Virginia about 1650. Thomas returned to the Virginia Colony to join his sons sometime between 1653 and 1666. (Date not known.) In 1666 he moved to Maryland from Virginia. He died leaving a will in Cecil County, Maryland. Volume 1, Page 127.

As it was said Thomas the father of Palmer and Farrar by two different marriages, either Farrar had a very younger brother who came to the New World (Virginia) with his father in (1653-1666) or Thomas married the third time.
It is believed he married again. Thomas first came to Virginia from England then around 1666 he went to St. Mary Co., Maryland with a son. William if not more children. He left a will in Cecil County, Maryland which was probated January 27, 1683.

William was a large land holder first in Maryland then in Virginia, later in North Carolina. In 1758 he bought 70 acres on the Falling River, Bedford County, Virginia. Sold land in 1779 in Henry County, Virginia. His wife listed then as Mary. He bought and sold land in Caswell County, North Carolina and made many deals in Buncombe County, North Carolina where he was living in 1790 with a new wife named Sarah. He moved on west and died in Hawkins County, Tennessee. At this writing only two of his children are listed. I am sure he had more. Perhaps the Jesse Hinton and his sister Mary that are listed under a new chapter are also his children, who knows. Their father is not yet known.

Thomas Hinton was born in Montgomery County, Maryland and moved to Ross County, Ohio in 1796 where he died. He is buried in the Cemetery on the hill in Adelphi, Ross County, Ohio. His second wife Deborah died in Delaware County, Ohio and is buried in Mill Creek Cemetery, Delaware County, Ohio. Thomas first settled on the north quarter of section nine, he stayed there for two years. Due to much sickness caused by the dampness and the dews of the prairies, he moved to a place a mile to the southwest where he settled on the east half of Section 10. His land grant was signed in 1807 by President Thomas Jefferson. His homestead is still in the Hinton Family and is very productive as of 1972. Much more data can be acquired from the History of Ross County, Ohio published in 1917. A big note of thanks goes to Mrs. Rex Queen, 658 Garden Drive, Chillicothe, Ohio, 45601 for the many hours of research. The children listed are not known which marriage is which, other than this note of Ohio history. "William and Colonel Sebren were full brothers but Levi was only their half brother."
