GENERAL INFORMATION
GEORGE WASHINGTON HINTON

George relocated to the Seattle area and worked for Boeing for over 20 years in all areas of computing before retiring. George's interests include family research, land development and the stock market. He saw a challenge in writing books to cover all Hintons throughout history.

Current Address: George Hinton, 5116 Dogwood Dr. Everett, WA 98203-3157

All the money received from the sale of this book will be spent for further research, printing, mailing costs and other general expenses. No money will be spent on labor or obtaining information.

We are in need of researchers and data gathers. Each one of us owes some of our time to this project to preserve the Hinton and Related Families History for posterity.

Since the descendents of this large family—Hinton, Hentune, Henton and Hynton, as it is sometimes called—are to be found in all the United States and in many countries overseas, the writer takes this opportunity to thank all the wonderful people who sent him information.

This book was compiled only after much research was done by many people, the pieces of information were then reviewed as received and valid information were placed in the Hinton Data Bank. To list a few sources that were used as reference data during the actual preparation of this book is as follows:

The Compiling of a Third edition of Hinton History is due to the large interest in the history of our family and the related families. A vision and desire to gather together all the records which might otherwise be lost, in hope that may be helpful to future generations, was accomplished through you. Each of us owe to our later generations to provide them with data and tit-bits of information of our past.

1. Third Edition - Volume One is a list of Early Hinton’s between Mid-1300's to the late 1800's. The book covers 9,000 events (born-christened, married and died).

2. Third Edition - Volume Two is the children of Sir Thomas Hinton established the first Colony at Jamestown, VA and Sir Dr. John Hinton settled in VA and MD. The grandsons of Sir Thomas. Their families and related lines are found in every state today. Thomas III settled in Ohio and Christopher settled in VA.

Any family history is like a great body of water, each drop helps. The history of a family is not compiled by any one person but by numerous individuals over the generations, who have contributed their bit of information.

Many persons have given invaluable information on their individual lines, others have assisted in the research and adult of all the lines. To list but a few who have given much time and money to make this book come true for use by all; Judith Garner Hinton, David E. Hinton and Dr. and Mrs. Ray Edwards.

It is hoped that the publication of this book will provide a stimulus to its readers so that, as a result, sufficient additional information will be supplied to warrant the publication of another edition in the near future. Undoubtedly, some of the lines have only limited data and can be amplified with present information already available from
members of that line. Other lines may not be listed because the data was not available at the time of the printing. The most important data that you could provide for all to use is dates of: Birth, Marriage and Death also a short story of their life. Please send any additional data you have to the Hinton and related lines for future use by all.

There are enough recorded facts from the time that the two brothers, Eruald and Ulbert Hinton, came to England in 1066 in the company of Geoffrey de Magnavil of Normandy and fought at Hastings with William the Conquerer to prove this data. Later they both received land grants as promised in Northamptonshire at Donnesday Survey in 1070; down to the adventurous life of Dr. John Hinton, son of Sir Thomas Hinton, the faithful friend and servant of King Charles I and King Charles II.

The name of Hinton, in England stands as high for bravery in battle, fidelity of trust, eminence in literature, as that of any family of commoners, that England has produced, and in this country they have steadily maintained their respectability, and have proved themselves, in all their different lines of work. Both the male and female have proven themselves useful and honorable citizens.

The Alumni Catalogue of Oxford shows (28) Hinton graduates from 1500 to 1712; the most prominent being Dr. Sir John Hinton, Court Physician to Henrietta Maria of Orleans and her son King Charles II; Sir William Hinton, Arch Deacon of Coventry; and his son Samuel Hinton, D.G.L., the scholarly Dean of Litchfield.

The word "Hinton", in Anglo Saxon, means "old town"; and is given to at least a dozen different parishes in England. The Family of Hinton, however, took its name originally in the early 1500's, from Hinton-Sutton, or Hynton-Brackly, as it is variously called, in the north-eastern part of Northamptonshire; and Hynton-Woodford in the north-western part. The Hynton-Henton-Hentune-Hinton people were known in the past a great, adventurous people with large families, a fighting "Viking" type people who knew what they wanted and were willing to fight for it. Also this lineage has a greater percentage of doctors than the average family line. The answer to this may be due to the emphasis placed on education by Sir Thomas Hinton and his son, Dr. Sir John who passed this emphasis down through time. Education is the easiest way to get ahead, it also has been considered the greatest status symbol of all time.

**BATTLE OF HASTINGS - 1066**

A little about the Norman people. It is said they came from a little country on the French coast named Normandy. Previous to this, it was also said the Normans came from the lowland countries of Europe. Better known as the "Norsemen" or "Vikings", at one time they were also known as "The Sea Kings", a term which is applied to a man of royalty, who took by right the title of King when he assumed the command of men of lesser power. These men were Scandinavian adventures who, by daring, hardihood and endurance fought their way to thrones, establishing kingdoms, principalities and dukedoms in all parts of Europe and as far east as southern Russia and as far west as Great Britain.

The Battle of Hastings in 1066, commonly called "Conquest of 1066" had the most important influence on the Saxon manners, language and the present English Constitution, which had hitherto escaped with little change and is, therefore, one of the most important epochs of great English history. This battle, even though it was of short duration, had a great impact on changing the world we now live in.
According to history, this battle was very well planned, and each man was to receive land or money as an incentive to fight. William the Conquerer promised each leader a large land grant in England, if they were victorious. This was an extra incentive to the leaders to push the warriors to their fullest extent.

A few facts about the battle itself. The Norman Conquest of England was only one very short battle, called Battle of Hastings. It was fought on October 14, 1066 on Senlac Hill, only a few miles from Hastings, between William, Duke of Normandy and Harold II, King of England. Harold's fortified position was attacked at 9:00 a.m. by the Norman Army in three divisions, strong in cavalry and archers, the center led by William in person. The English made a stout resistance with their battle axes and other weapons, but part of them, pursuing William’s fleeing Bretons, the whole body was led into a trap by the feigned retreat of many of the Norman forces. The disordered ranks of the English were easily overborne by their enemies who stormed and carried the hill. The death of Harold, who was pierced in the eye by an arrow about sunset, disheartened his men and they shortly dispersed. Battle Abbey was erected by William on the field where Harold fell and portions of it still exist. Among the literary treatments of the event are two poems by Chatterton. Battle of Hastings grounds are about sixty-four miles southeast of London on the English Channel. William prepared his campaign with great care. At the most, William had 12,000 troops. The battle ground was only an 800 yard front. The battle began with Norman archers opening fire when within bowship and accomplishing considerable execution. A wave of Norman Infantry, however, broke against the shield defense. William then sent in his cavalry, but this, too, broke on the shield wall. In the final phase, infantry and cavalry under archer cover fire made a concerted attack and broke through. This is when an arrow having pierced Harold’s eye, he fell mortally wounded. At that time, William could see that the battle was won because of poor planning by the English. After the battle, William the Conquerer built a one story castle on Senlac Hill to show the world where the Norman Invasion took place. This castle is now in ruins, but you are still able to see its resting place.

A few changes which took place in England shortly after the conquest of 1066 were: (1) a House of Parliament was established in England; (2) The present Judicial System the world is now using was set up by the Norseman in England; (3) The Feudalism System of rulers was discontinued; (4) Many other great changes were made for the betterment of the world we now live in.

Two Hentune-Hynton men fought in the Battle of Hastings, along with many other Normans, but the Hynton brothers were leaders of the men, serving in the company of Geoffrey de Magnavil. They both received land grants in Northamptonshire at Domesday Survey in 1070, in accordance with the promise of William the Conquerer.
Dear Friends,

As you can see we have been working very hard to gather all the bits of information from the Hinton Data Bank, that all of you have been supporting for sometime.

Each record stand alone but you can easily make a family tree see example Ancestor Pedigree chart. Example: Name, Sex, Event (born, christened, married, died) the date listed for each event. The mother and father is listed if available for all (born and christened) events. The wife and husband is listed for all marriages. The events start in the mid 1500's thru the 1800's. Listed are over 9,000 events.

Under the English rule, the Hyntons (Hintons) families did prosper. Large families and large fortunes were common among the Hyntons (Hintons). It is said that some of them married into the royal family of that time. In the late 1400's, it is said that some of the Hyntons changed their name because they were in high politics, so they made up an English name - Hinton. This made it easier to deal with the public.

The Hyntons and Hintons served under many kings between 1066 and 1700. The English people, as we know them, are of at least four different blood lines - Neolithic, Celtic, Roman and Teutonic. The Neolithic Race ruled from 7th to the 3rd Centuries, B.C.; the Celts ruled until the 5th century A.D.; the Romans were the rulers for many years. The Teutonic came in the 11th Century (Norman French). It is said that King Egbert 829-839 (a Dane), had Hynton blood in him. He was a Viking. The estates of "Earlscoot" and "Chilton Folict" were passed down through generations. Standing today, in the South Aisle of St. John's Church in the Town of Wanborough, County of Wilts, is a monument to Sir Anthony Hinton, Born 1532 - Died May 7, 1598. His son, Sir Thomas Hinton (Born 1574 - Died February 1, 1635), was a Knight and served two kings. He was the first Gentleman of the Bedchamber to King James I of England. When King James I died, his successor, King Charles I was served by Sir Thomas Hinton in the higher Position of Privy Councillor. Through his high position, he was able to invest in some government projects. One of these was the Jamestown, Virginia Colony, London Company. He was the largest stockholder of the company. He became the richest commoner of his time. Because of his investments, he had to send overseers to the new land from time to time, to check on their progress. Many of these overseers were Hintons. He also sent his son-in-law, Captain Samuel Mathews (1592-1660), son of Tobias Mathews, the 56th Archbishop of York. Captain Samuel Mathews later became Governor of the State of Virginia.

In Burke's General Armory of Great Britain, are described the Coat of Arms of no less than twelve families of Hintons. Their name was sometimes written Hynton.
Henton. The Arms of the Hintons of "Earlscott" and "Hilton Follot" are "Per fesse indented argent and sable, six fleur-de-lis-counterchanged. Crest - An eagle's leg erased, entwined by a serpent". These armorial bearings correspond with those of Sir Thomas and Sir John and of the Hintons of the New World.

* = The direct line of John James and William who settled in N.C. in the early 1700's

The following pages are of the English line between 1066 and 1700. As you can see, a large amount of the data is missing. If you can help fill in the blank spaces, please do so. We are in need of many names and dates.

The house in Stainswick still stands, the Hinton Family owned it until 1709 of even later. Presently it is owned by the Magdalen College, Oxford. It is a lovely old dwelling house a good deal of which is Elizabethan. It is of gray stone with a beautiful stone tiled roof coming down low at the back. It is a long low house and almost gives the impression of being two houses for the southeast corner is certainly older. There is a piece of wall some six or seven feet in length standing at the end of a garden path and on this is an urn of carved stone of an early date. Such a vase as is often seen on the gate pillars of a big estate. The end wall of the house which faces this has two brick oval windows with stone heads above them.

He was a man of considerable wealth and power, as the Hyntons of the past he had a large list of properties. "He eventually became the largest owner of and in Berkshire, paying taxes on over 4,000 acres." He purchased from Thomas, Duke of Norfolk, July 7, 1541 the manor of "Eariscote" in the parish of Wanborough containing over 600 acres. Under his father's will he inherited the manor of "Over-Bournton".
Also his wife's father John willed many valuable possessions to his already large estate. He was Knighted early in life and was appointed to many high offices. Listed is his children:

Anthony Hinton (B) 1532 (D) 7-5-1598 (M) 5-15-69 Martha Warnford (D) 20-5-1637

Anthony Hinton, of "Earlscote," the son of Thomas Hinton and Anne Goddard inherited the manor of "Earlscote." Anthony was Justice of Peace of Berkshire. Anthony married late in his life to a young girl Martha Warnford, the daughter of John. They had a large family and he died and was buried in St. John Church, Wanborough, Wiltshire. His grandson Sir Anthony erected a monument in his honor which still stands today, it says "Anthony Hinton, Esgr. Ob May 7, 1598, aged 66, Grandfather to Mr. Hinton, Privy Councillor to King Charles I." The mansion of "Earlscote" is strangely beautiful and peaceful, it is surrounded by its somewhat un-prepossessing farm buildings. It was moated during King Edward VIII reign when he would spend time there. The ponds still remain on two sides. There are curious (not local) stones in and around the ponds which are said to be of Druidic origin. There are some beautiful brick and timber work on the west side which is evidently older than the rest of the structure. The house is mentioned in the book "Kenilworth" by Sir Walter Scott." There are secret passages running all through the upper part of the house. These secret passages led to many ghost stories. It is also said that there were priests who used these passages and hidden rooms to celebrate mass in the days of the Reformation. Anthony carved his own and his wife's initials inside the cupboard door in his bedroom. Today the "Earlscote" is standing. Anthony and his wife Martha were very generous, almost every church in Wiltshire during their time received beautiful gifts. It appears this branch of the Hinton family secretly still supported the Catholic church even though King Edward VIII forbade his statesmen to support this church. Anthony was married at Seven hampton, Wiltshire, England in May 1569. Listed are their children:

parliament. Sir Thomas died and was buried first at St. Andrews Church, Wanborough but was later re-interred at Chilton Foliat at the side of his first wife Catherine. All children born 1st marriage at Childton Foliot, Wiltshire, England. All listed children are from the first marriage.

   Sir Anthony Hinton born 1596 and married Mary Gresham June 22, 1619, died July 1647. Was the oldest son of Sir Thomas Hinton. Sir Anthony had at least two sons if not more. They were Thomas Hinton, born 1620, baptised April 9, 1620, died 1621, and Anthony Hinton born 1621, who had a son Thomas.

   Sir Anthony was knighted at oatlands by King James I July 4, 1647 and in 1634 was bailiff of West Minster when he helped to assess the money for a new ship costing over 4,000 pounds. Sir Anthony himself was a master and the ship owner of the Bargne "Anthony" as is mentioned he was a merchant adventurer. Sir Anthony received 500 pounds from King Charles I for a diamond ring which the king presented to Abbot of Scaglia Ambassador extraordinary from the Duke of Savory, August 22, 1628. Thomas Hinton, son of Sir Thomas Hinton and Catherine Palmer. As far as we know he did not go to Oxford like most of his relations. In fact no records have been found of him until we hear of him as a member of the Council of the Governor of Virginia, (which his father was the largest stockholder). The next we hear of him is concerned in a case before the Privy Council December 11, 1635, investigations of charges against Sir John Harvey, Governor of Virginia. The charge against the Governor was not sustained and Thomas Hinton was so disgusted that he resigned and returned home to Chilton Foliat. He first married Anne Busher (Bosier). They had one son named "Palmer" who went to Virginia in 1653. He married second Elizabeth Farrar, daughter of Sir Robert Farrar who was a business partner of Sir William Hinton his brother. Thomas and Elizabeth had a son named "Farrar" who also went to Virginia in about 1650. See Christopher line for the current lineage.

Her second husband was a rich merchant by the name Colonel Abraham Peirsey. Her next marriage was arranged by her father. He offered Captain Samuel Matthews the son of Sir Tobias Matthews Sr., 66th.

Sir Doctor John Hinton, the son of Sir Thomas Hinton and Catherine Palmer. Born July 10, 1603 at Chilton Foliat, baptised July 17, 1603 at St. Martins Parish. Entered Eton College 1618, matriculated Queens College, Oxford, November 9, 1621, age 18 graduated B.A. 1625, M.A. 1626. He studied medicine at Westminster Chemical School, 1625-1629. He appeared before the Board of Censors of the Royal College of Physicians for examination for the special license given by that body. He presented letters from his father’s old friend Henry Pierrepont, Marquess of Dorchester, one of the principal Secretaries of State, showing papers where he had also been appointed Physician in Ordinary to the Queen, Henrietta Maria, wife of King Charles I. Later he was appointed Field Surgeon, Royal Army in 1642. He was knighted by King Charles I for his services during the great plague. Dr. Hinton married, while a student at Leyden, a lady whose name was Elizabeth Dilke.

Sir Doctor John Hinton. He resided at Fullwood Rents between 1645 to 1656 at which time his wife died, then he moved in a house in St. Brides Parish where his only daughter kept house for him. There is a very good sketch of Dr. Hinton in Monk’s “College of Physicians”, Volume I, page 329. His “memoirs” of which only 100 copies were printed in 1814 is also very good reading. If there is one man who deserves credit for establishing the Hinton name in the New World, he certainly does. His family supported the company which his father owned. He had a sister, a brother, three sons and many grandsons who came to the New World to settle. Also Dr. Hinton came to the New World for the first time in 1622 with his brother-in-law Captain (Governor of Virginia) Samuel Matthews. Dr. Hinton returned to England to report his finding to his father stating something like this: “Dad, the new land of yours is nothing but a land of milk and honey”. From time to time, his father sent others, all of whom brought back reports similar to that of Dr. John Hinton, also the lines of Thomas and Richard his sons that settled in Maryland in 1666. It is also stated that Dr. John Hinton married Catherine Vander Ruckle after the death of his first wife but no proof as of this writing. In 1666 there came to Maryland his sons, Thomas, Clement and Richard. From Thomas descended the Hinton’s of New York and Pennsylvania. Richard settled in Virginia and Clement died unmarried. Listed is the children of Dr. Hinton, all were born at Leyden, England:

FOREWORD

The compiling of a third edition of Hinton History is due to the large interest in the history of our family and the related families. A vision and desire to gather together all the records which might otherwise be lost, in the hope that they may be helpful to future generations, was accomplished through you. Each of us owe to our later generations, to provide them with data and tid-bits of information of our past.

Any family history is like a great body of water, each drop helps. The history of a family is not compiled by any one person but by numerous individuals over the generations, who have contributed their bit of information.

Many persons have given invaluable information on their individual lines others have assisted in the research and audit of all the lines. To list but few who have given much time and money to make this book come true for use by all; Judith Gardner Hinton, David E. Hinton, Dr. and Mrs. Ray Edwards.

It is hoped that the publication of this book will provide a stimulus to its readers so that, as a result, sufficient additional information will be supplied to warrant the publication of another edition in the near future. Undoubtedly, some of the lines have only limited data and can be amplified with present information already available from members of that line. Other lines may not be listed because the data was not available at this time of the printing. Please send any additional data you have to the Hinton and related lines for future use by all. The most important data that you can provide for all to use is dates of Birth, Marriage and Death also the proper spelling of their Names.

THE THREE BROTHERS TO THE NEW WORLD

One of them, John, was traditionally called "Colonel", but this title had no military connection. But during that period of time a southern gentleman of means could take the title of Colonel if he so desired. This sometimes showed added respectability. In many cases few records were preserved and efforts to trace the genealogy seems quite a hopeless task at times, but in all cases we try to be 100 percent accurate. If we have any doubt of the accuracy of the data we omit it completely or so state we have doubt.

JOHN HINTON'S LINE

There has been more research into this line than any other Hinton line in America. Any genealogy book that contains Hinton data refers you to this great line. A job well done goes out to the many fine people that have given many hours of hard work to this great task. John Hinton was a man of prominence, wealth, and had widely-spread connections, therefore, he was traditionally called "Colonel". He married Mary Hardy, the daughter of John Hardy, who was a descendent of Sir Robert Hardy. Mary Hardy the wife of John Hinton decended from the England Royalty Seven- Baron's forced King John to sign the magna carta. Mary's line traced to Egbert (first King of
England in the year 827. After the death of John Hinton on June 6, 1731 his wife Mary married a wealthy man by the name of Thomas Holliday. They had children which settled in Hartford, Connecticut, and almost as always, the children of the first marriage did not agree with the ways of the new family. So as it was with Malachi the youngest son of John Hinton. He was only one year when his father died. At a young age Malachi moved into the home of his brother (Colonel John Hinton of Wake County, North Carolina). They had (11) children as listed with their families and descendants.

1. John Hinton (B) 1715 Chowan Co, NC (D) 1784 (M) 1747 Grizella Kimbrough (B) 1720 (D) 1790

Col. John Hinton, the son of John and Mary, married Grizelle Kimbrough, the daughter of Buckley Kimbrough. It has been stated that he was born in England and that he is the oldest son, but records now prove that false. He was born in Chowan County, North Carolina and died in Wake County, North Carolina. It appears that he is the oldest son. He settled in Johnston County, North Carolina. (Later Johnston County was divided and Wake County established by Colonel Hinton.) Six miles east of the present town of Raleigh, near the banks of the Neuse River. He took up many thousands of acres of land by grant from Earl Granville. In some places the property ran four miles both to the east and west of the river. One tract known as "The River Plantation" is still owned by a descendant of the Hinton name. Many early homes built by the Hintons in 1700's and 1800's still are in a good state of preservation. When Wake County, North Carolina was established in 1770, John became Colonel of the Colonial forces in the new county. He participated in the Battle of Alamance, May 16, 1771, against the regulators and his bravery was referred to by Governor Caswell in a message to the Legislature. Col. John held many high offices, one was to divide Johnston County, and establish the West County boundaries. The plantation that Col. John called home was "Clay-Hill-on-the-Neuse", it is still standing in the town of Millburnie, six miles out of Raleigh on route 64. Listed is their children all born in Johnston Co, North Carolina:

He assisted in setting up the county boundaries of Wake County, North Carolina under Col. John Hinton. Joel Lane later served in the North Carolina House of Representatives for thirteen terms. He also became a judge of North Carolina in 1771. Governor Swain says this of Lieutenant Colonel Lane, "He is a rare specimen of architectural elegance", because he enjoyed building cities, towns or what have you, he had no time for his own. His house was small and plain because he tried to live with the common people. Joel Lane has been criticized because of his sale of land for the location of Raleigh, North Carolina, they said it seemed a little illegal and bad practice at the expense of his father-in-law, Colonel Hinton. This sale not only broke relations with the Hintons but it cost him his seat in the House of Representatives. He died in 1795, broken hearted. His grave was plowed over and obliterated by Mr. Peter Brown, a Scotchman and a lawyer, who acquired his homestead by purchase. He had a total of (12) children, six boys and six girls.

JAMES HINTON'S LINE

James was named after his father James Hinton 1642. Just as his father before him, very little information is available on this heritage. We presume that there are many Hintons in Georgia and the rest of the southeastern part of the U.S.A., that are related to this line. There is only a slight knowledge of this line, please help us add to it.

Some people feel James Hinton was in Pennsylvania in 1701 through 1710, and in 1710 he joined his brothers in North Carolina. James was a large land owner, the records show he bought land April 27, 1716 (125 acres) on the south side of Bennets Creek, Chowan County, North Carolina. He bought more land from his brother William on January 20, 1718. On April 4, 1722 he was granted (350 acres) on Bennets Creek, Chowan County, North Carolina. He purchased (100 acres) from the Chowan Indians for 50 pounds, January 30, 1735. Many more land deeds are listed where he has bought land. James was on the jury list of Chowan County, North Carolina in 1739. After studying the writings of Wharton Dickinson, The Hiatoa Works 1220-1935, The Works of Adelle Bartlett Harper and Mary Hillard Hinton writings, Dr. George Hinton of Portland, or, writings. Also real estate sales to James. He bought land as early as April 27, 1716 (125 acres) on the south side of Bennets. See above for just a few of his transactions. At the first time James bought land it was believed that all land south of Bennets Creek was N.C. Land. The Federal Government established new boundrie lines in that area in the early 1700's. The land he bought was in VA. after the adjustment. James was on jury duty of Chowan Co, NC in 1739. It is now believed that from the above writings that James did come to VA. years before his brothers William
and John. Also is now known that James was not the oldest. There may have been many other children that stayed in England. The 1981 N.C. General Journal: 14 Apr 1742 - pet. of Benjamin Blanchard vs James Hinton - widow of Robert Blanchard married James Hinton. It is believed that Robert is a brother to William Hintons wife Elizabeth Blanchard. It appears Robert and Catherine (last name unknown at this time) farm was in Nansimond Co, VA.. It is said after her husband died James improved the farm and raised her children with their children. James wants a division of the estate at her death.

1. Aaron Hinton (B) before 1742 The son of James Hinton and Catharine?

Aaron was born in Nansemond Co, Va. or Chowan (Gates co N.C. and (M)Mary? Maybe Gates co, NC and some of the children could have been born there and or Johnston Co, NC. His wife (Mary) was listed as the head of the household in 1800. The census shows she was living on a 400 acres of land in Johnston Co. NC. There was two males under 18 and seven females. The last four girls 1790-1800 are believed to be Kitty's children due to the ages. Real Estate transaction in the 1800's that the land where Mary lived was divided into 200 acres each and Jesse and William Hinton each got one each. That appears that their mother (Mary?) died and no will of Aaron or Mary has been found. Listed is Aaron's children it is believed that all their children were born in Gates Co, NC. As we know them.

HELP would be APPRECIATED.

As you can see we need lots of bits of data on James and the other lines below the lines of Hillard's. It takes team work to find all the bits of data. We need you to help form a team and everybody send the bits of data to The Hinton Data Base, 5116 Dogwood Dr. Everett, Wa 98203-3157. Other lines need your help if you have or will gather this data please send. THANKS.

Jesse Hinton was the second son of Aaron who was the youngest son of James Hinton who came to Va. then on to NC between 1700-1710. It appears James was not married when he came. It is believed that he was sent ahead, maybe, to talk to his many relatives that had came to America between 1600-1700. It is believed Aaron moved to Johnston Co, NC before any children were born. Aaron died before 1790, because his wife Mary was head of the house at the 1790 census. They lived on a 400 acres of land. After the 1800 census and before the 1810 census his mother died. The estate was given to the two boys. The three girls were married. Jesse went off prior to this to fight in the Indian wars in Georgia and Alabama, when he returned he told his friends how nice that land was. Jesse was in LaGrange, Lenoir Co, NC, Then in 1800 census head of the family Greene Co, NC on 1-2-1812 Jesse his wife Sarah Brauner and children plus his sister Mary and her husband Bridges O'Neal and five children moved west. Jesse and his sister Mary took their slaves to Ala, and Ms. The O'Neals settled in Alabama and Jesse's family went on west to Mississippi to settle in the part of Green County, that later became Perry County. It has been told that Jesse fought in the Indian wars of the early 1800's before he settled in Mississippi. It is also told he was in the battle at Mobile, Alabama. When the Indians burned the town (now city), no record of this has been found for proof other than hand-me-down family information but I am sure it is true. The people of Perry and Green County, Mississippi traded in St. Stephens, Alabama for supplies required. Later a Mr. Bartlett brought a trading boat up the Leaf River. He made a lot of money, he buried several thousand dollars in Spanish Coin south of Old Augusta, he died without telling anyone the
whereabouts. It was found in 1854 by Allen Hinton. Jesse Hinton died between 1835-1836 and his wife lived beyond the 1850 census. She lived the last years of her life with her son Robert, the oldest. Jesse and his wife Sarah and others are buried on the Leaf River (Joshua Bluff) just three miles, at the present rest stop, on US 98 north of Beaumont, Mississippi, where he had settled. Many people worked hard to gather this information. Each person will be listed under their part of the line but an overall thanks goes out to Pat Edwards, the wife of Dr. Ray Edwards, who presently lives in Richton, Perry Co, MS.

3. Jesse Hinton (B)1775 (D)Ca 1835-1836 (M)Sarah Brauner (B)1776 (D)1855, They both were born in NC and all their children, except the last was born on the trail to MS. Jesse and family settled on Leaf River on Joshua Bluff. Their plantation was called Joshua Bluff. Jesse was listed on Greene Co, MS 1815,1816, thru 1820 then on the Perry Co, MS tax rolls in 1822, 1825, 1828, 1829, 1830,1833,1835.

Ben and Jean wrote a book on Cemetery Records. If you have kin that lived and died in Perry Co, its a must. You may order from: Ben Strickland, P.O. Box 5147 Moss Point, MS 39563.

4. Robert Hinton Sr. (B)1790 (D)8-4-1861 (M)CA 1813 Mary ? (B)CA 1790. Listed on tax rolls Greene Co. MS 1815 to 1820 then 1821-1860 Perry Co, MS same land.

Born in North Carolina, came to Mississippi with his father and family in 1812. Was listed in Perry Co, Mississippi census as late as 1860. He cared for his mother after his father’s death. Robert was listed as a farmer. It is believed he is buried at Joshua Bluff, Beaumont, Mississippi. Had three sons who served in the Civil War, one of them was killed during the war.

Jesse Hinton enlisted at Williamsburg, MS 14-8-1862 in Co. “G”, 7 Bat’n Inf, to the eyes. He was discharged 24-2-1863, paid 56.41 age 45. Discharged because of damage to eyes. He was blind at that time in the left eye. Prentiss Hinton enlisted Co. “G”, 27th Infantry Private September 17, 1861 at old Augusta, Perry County, Mississippi. Was wounded and given a 30 day sick furlough to Perry County December 24, 1862. Another son of Joshua Hinton served this war. Information will be listed under him. Robert Hinton petitioned Congress in 1820 at New Orleans, Louisiana “that inhabitants east of Pearl River would not get proper representation.” Their children listed, all born in Perry (Greene) Co, MS.

Both are buried in the Hintonville Cem.

Due to the shortage of people during that time it was common to marry a first or second cousin which he did. Her father was William Riley Hinton. Susan was born in (Wingate) New Augusta, Mississippi, married her second cousin who also was born in the same town. They moved east of the river and set up a complete new settlement called Hintonville. He owned all the land around, through a land grant he received. He gave some land to the railroad for a depot, therefore, the settlement was called Hintonville, Mississippi. Jeptha built a large wooden boarding house to handle the traffic from the train. Many saw mills moved in, but as soon as the timber was all cut they moved on, and the town died as many others did. Now it is just a farm community. Their children listed all born in Perry Co, Mississippi. Both are buried in the Hintonville Cem. Perry Co, MS and many of their children.

Thomas was born in Wingate, Perry County, Mississippi. He enlisted in
Co. "F" 17th Cavalry as a Private January, 1863. Later was in Co. "D"
9th Cavalry. His co. surrendered at Meridian, Mississippi in May, 1865
at the wars end. Was parolled 23 May 1865 to return home to fight
no more. When he came home he found Yankee Troops occupying his
home town of Old Augusta. The towns people had moved out of town
a ways and set up a new town calling it New Augusta. Thomas even
more so than the others was very sick of this war, where brother
fought brother, and the kin was being killed on both sides. He packed
his belongings and moved east of the town about ten miles, applied
and received a land grant. He married a war widower with four
children. Before her first marriage her name was Breland. He was
quite a story teller in his later years of life. He said when he joined the war the South was out of horses so they gave him a mule which was slow; therefore, he was always behind the rest of the troops, which he owes his life to the slowness of the mule. Also he states he killed at least one Yankee if not more. Before he died he divided his estate up (for tax reasons) and gave to his children and their children. Thomas E. Hinton treated the Herring children as if they were his own. See Susan Hinton and Samuel Herring for this data. A note of thanks goes out to Mr. Corbett D. Hinton, Beaumont for his vast knowledge of Hinton data. Also many others spent many hours of research and work: Mr. & Mrs. Herbert O. Kittrell, 6408 Hastings, St. Metairie, Louisiana 70803; Mrs. Bessie Hemeter, New Augusta, Mississippi; Mrs. Wert Green, Route 4, Box 320, Beaumont, Texas 77705; Mrs. D.A. Lott, Route A, Box 2020, Wiggins, Mississippi, and many others. Their children were all born in Perry County, Mississippi.

William's full name was William Thomas Lanzrus Jackson Hinton. With a name like that he could have been named after many different people. Was born in Beaumont, Perry County, Mississippi. Raised and died there, is buried in his father's graveyard with his wife and other Hinton kin. Theodosia was born in Bendale, George County, Mississippi. Her father was Aaron J. Mixon. They were married on the Gulf Coast in Jackson County, Mississippi by Rev. G. W. Byrd. She was part Indian it has been told. He received a land grant close to his father's estate. The grant was signed by President William McKinley. It has been told that he was butchering his yearly supply of hogs in late 1910, it was a cold rainy day and he started early in the morning with many others helping him. When he finished it was way in to the night. He was wet and tired so he threw himself across the bed to rest a minute since dinner was not ready because his wife had been
helping with the fresh meat also. Needless to say he caught cold which later turned into pneumonia. He never got out of the house again until his death about two months later. Leaving his wife with eight young children and one child not yet born. Thomas E. Hinton would bring her food and money each week. She never remarried. She was tall and slim and always working in the fields, yard and cleaning the house. His oldest son Aaron was only (14 years) of age. He had to take over the estate for many years that his father left. Because of this he never completed high school, but because of this hardship he became an outstanding manager and a self educated man. During World War I he enlisted in the Navy. He later settled in Texas to become a large home builder of the West. William's children were all born in Beaumont, Mississippi except the oldest girl which was born at her father's home in Bendale, Georg County, Mississippi.

Oscar was in the Army W.W.II served in the Pacific and on the first wave to occupy Japan until replacements could get there. He worked as a welder at the Pascagoula, MS. dry docks and lived on the coast for a while but returned to McLain, MS. where his and Waudell’s folks lived close by. Later he changed jobs to Mobile, Ala dry docks. He would come home after 8 to 12 hr hours of work, not counting two hours driving and he would tell Waudell could he cook the meal that
night. He is a very good cook, from the old restaurant days. They had
two sons and one girl. The two boys came down with Muscular
Dystrophy. It was heredity from the mother. They would not place
them in a home because they would not get the love and care. The
home was remodeled and for over 15 years after they got sick they
cared for them. The doctor said the normal death is early teens age.
Due to the love and care Mel lived over 21 years and Doug lived 19
years. They were written up in a Medical Journal. When one died less
than a year the oldest one died. Some people say miracles donot
happen in todays world. In August 1967 I had just retired from the
USAF and I went to Mississippi with my wife and child to see my
mother, father and the rest of family down there. Waudell received a
phone call from the Ala. dry dock saying her husband has been hurt
and the aid car is taking him to the hospital in Mobile, Ala. I drove
my car with Waudell, and my mother. The doctor said every minute
he lives is better for him to recover. He stayed in a comma almost a
month. The doctor said it was a miracle but he may never talk or
walk again. Within days he told the doctor he had to go home for the
boys. Today he walks, talks and even drives his car. Oscar tell us that
when he was in a comma, all he could think of who would take care of
the boys. Their children are listed;

I joined the USAF 29-7-1947 because I knew there was something in life better than the restaurant work. I was assigned to a Fighter Sqdn. in Japan after my schooling in 1947 then to the Phillipines which I was there when the Korea War came. We were the First Fighter Sqdn there in Korea (K1) then (K3), K5, K10 and really all over the South and North Korea with P-51S. Many times I wish I was dead and get it over with. I was assigned Stateside Duty. It was a snap. Then I married a N.H. girl. We shipped out to Africa for a two year stay frome there on to Eroupe. Then I was Assigned to a Air Force Hq. desk job, that was ok. We were all Inspectors and went all over. Boeing offered me an outstanding job, so I retired from the USAF. I settled in Everett, Wa, working as a computer Engineer. After (2 3) years with Boeing I wanted to try something new that we had been playing for years. We saw land keep going up - up - up. We now are renting, developing the lots and selling. Lots of Fun-Lots of work but we enjoy it. My hobbies are coin collecting, out questing the stock market and family history. Lorraine enjoys collecting plates, and volunteer work. We have two wonderful children both adopted. One from Boston when we were stationed there, then one from in Seattle. They look like brother and sister. We love them better than anyone could love their own.

1. Blakely Hinton Sr. (B) 1793 (M) Mary ? (B) 1802

Blakely was born in North Carolina and moved to Perry Co, Mississippi in 1812 with his complete family. He married a girl first name Mary who was born in South Carolina. It is believed they were married in Mississippi around 1822. Blakely moved north some three miles from his father's settlement and settled on Wingate. He had three sons who fought in the Civil War. Two of which died while fighting the war. They were Hugh who joined Co. "H" 7th Infantry. Enlisted as a Private 26 August 1862 at Enterprise, Mississippi was wounded and sent to Chattanooga Hospital 14 November 1862. Due to the bad reporting of troops during the Civil War, he was reported a deserter even though he was not. Hugh died 21-2-1863 in the Hospital, Tallahomce, Tennessee. The Army paid his family $5.00 back pay. Death Certificate No. 7452. Blakely, Jr. also joined Co. "H" 7th Infantry as a Private 26 August 1862 at Enterprise, Mississippi. He was wounded and sent to Chattanooga Hospital. He also was reported as a deserter not knowing another report had him listed in the Hospital. Andrew Jackson Hinton enlisted in Co. "G" 27th Infantry as a Private 17 September 1861 at old Augusta, Mississippi. He was killed in action at the battle of Terry Riley, Kentucky, on October 8, 1862. Certificate of Death File, died age 25. Their children were all born at his homestead on Coleman's Creek, Perry Co., Mississippi. Not much data is known of this line.

2. Alethy Hinton (B) 1824

2. Mary Catherine Hinton (B) 1826

4. John Clayborn was the first child of Neil and Nancy. He grew up on his parents farm which was located about 1/2 miles southwest of Old McDonald Cemetery east of Augusta, now Kittrell Area. In 1852 John married Mary Hinton of Perry County. She was the daughter of
Biakney and Mary Hinton. By 1860 John had moved to Try Again (now Arlington Community) in northeast Perry County. His farm was somewhere between Thompson and Gaines Creeks. On August 6, 1862 John returned to Augusta to join Company H, 3rd Battalion, Mississippi Infantry. This was a unit of Perry County and Greene County men that guarded Mississippi against invasion. After the Civil War John moved his family further east into Greene County, as the lumber industry was booming around Avera at that time (1875). All of John and Mary’s children were born in Perry County. Mary died between 1870 - 1880 and her burial place is not known at this time. John lived in Greene County until his death on June 8, 1883. His grave in the McLain/Wade Cemetery marked by a Confederate Tombstone.

I believed he married before the Civil War because he was listed on the Tax Rolls Perry Co, MS 1860. Andrew enlisted in Co "G" 27th Infantry 17 Sep 1861 at Augusta, Perry Co, MS. He was killed in action at the Battle of Terry Rielly, Ky 8-Oct 1862. Certificate of death on File. We are missing lots of Names from the Blakey line. I am sure many people could produce many facts. Any clues will help. Thank you.

They met in Ferry Co, MS and it is believed they married there about 1823. They had (5) children and little is known by me of this line. We hope that the people that does know will not let this history go by, if so it could be lost forever. Thanks for your support. A little data here and there opens more data. Truissa lived in Greene Co, MS with her family. Samuel was killed in the Civil War, therefore she was left with (4) young children listed below. To care for the children she married Thomas Everett Hinton who treated them as his own. They then had (9) more children together. See his line for those children.

William Henry Hiram McDonald was the 4th child of Neil and Nancy McDonald. He was born in February, 1836 at his parents' homestead
1/2 mile southwest of the Old McDonald Cemetery east of Augusta/Kittrell Community. In 1857 William married Piety Ann Herring of Augusta. Her parents were Samuel, born 1795 in North Carolina and Susan Hinton, born 1796 in North Carolina. Samuel had the first grist mill in Augusta. William's homestead was 1/2 mile east of McDonald Cemetery. On May 14, 1862 William went from Augusta to Enon which at the time was in Perry County but now is in Forrest County to join the Confederate Army. He enlisted in Company E of the 17th Battalion of the Mississippi Calvary known as "Steede's Battalion." He was sworn in by Captain W.G. Evans. On December 21, 1864 this unit was designated the 9th Regiment of the Mississippi Calvary. William was a private in Company C. William's unit fought in the following campaigns: Franklin, Tenn, Chattanooga, Atlanta, Reseca, Kenesaw Mountain, Nashville, Savannah, and most of the other battles in Alabama, Georgia, and Tennessee. On February 27, 1865 William was sent to the Confederate Hospital at Macon, Georgia. He had Pneumonia, tonsillitis, and fever. He rejoined his unit in April and was present when Col. Miller surrendered the 9th Regiment to General Camby at Meridian, MS in May, 1865. Private McDonald was paroled at Mobile, Alabama on May 23, 1865. William returned to Augusta, where he lived until his death May 4, 1905. William was almost blind in his later years and lived with his youngest son Roderick until his death. Piety was living there, she died in 1918. Roderick's home still stands in Kittrell 1/2 mile northeast of William's homestead. In 1985 a Confederate Tombstone was placed in Old McDonald Cemetery to Mark William's grave.

Jesse’s first son, Nathan, must have died before this one was born or maybe there was only one.

It appears Lena Mae from the 2nd family should be with the first family because his first wife was named Ruby. Since the second Nathan may not exist, he may not have had any children by that wife. This is being checked out. Help

4. (?) (Girl) Hinton (B)1800-1807 (M)William (Bill) Moody
She was the daughter of Jesse Hinton and Sarah Brauner. She was born in Johnston County, North Carolina around 1800. She married a Bill Moody who ran the ferry at Sendale, George County, Mississippi. Bill also owned a ferry on Black Creek (some maps have it listed as Moody's Landing). It is between Brooklyn and Janice, Perry Co., MS. William (Bill) Moody had a sister Lucy Moody born 19-12-1912 and she married Hiram Breland (B)23-4-1797 S.C. They are both buried in the old Buffalo Cemetery. Some one must have the family Bible or know where they are buried. We need Help. Thanks

4. Hugh Hinton SR. (B)20-1-1810 Johnston Co, NC (D)18-1-1882 (M)Effie Minerva McLeod (B)GA (M)1835 Perry Co, MS (D)1844
Jackson, Par, La.

Effie's parents were Angus McLeod born NC. His wife Harriet? from MS. Hugh was the youngest child of Jesse Hinton and wife. It appears that he and others from Perry Co., MS received land grants. It is not known where he took his family at that time. Later he settled in what was Jackson Par, LA in 1842. Then in 1873 his land became Lincoln parish. Hugh had large land holdings. Effie died at home, and was buried in their graveyard. The first three were born in Perry Co., MS. The last two in LA. Many of the N.C. cousins settled in that area around Ruston, Lincoln, par, LA.

Parents are Roy Darrell Tate and Ruby Katherine Thompson. Darrell served in the military in the 1950s and Jeannine was able to be with him in Europe. She had a child there. I think she was a fore­-runner of the women's movement. If the boys could fly why not the girls also. It may have been hard to convince her parents, she did and was very good. Jeannine was the youngest female (19) in Pike, MS, in the 1940's to get her private pilot's license. She could have received them at (18). There was a custom to cut a piece of the New pilots pants off. She said no but after some time she agreed to have her slip cut. Everybody was happy and Sept 1947 she made her first solo flight. God bless her for all the women that fly today.

3. Noah Blanchard Hinton (B) 30-8-1787 Bertie Co, NC (D) 30-7-1849 Madison Co, MS (M) Elizabeth Hinton (B) before 1774. Her line is not known at this time. She may have been born in Gates Co, NC because she had a brother living there named Thomas who died in 1844. It is not known if Elizabeth died early, or divorced, when Noah moved to Madison Co, MS he had one son William Henry, but I believe all children came. Noah was a College Professor in NC. Noah bought a very large tract of land near what later became the town of Livingston. After the Civil War he had to free up the slaves and no money for boarding schools, Noah was working many hours to care for the large plantation. He sold a lot of land to New Settlers which became Livingston. His second wife taught their children preparing them for College.

Noah B. Hinton 3 June 1847 prepared a letter which appoints his son Eugene Joseph Hinton to go back to Bertie, Co, NC and sale all his land and Plantation in said County. His son was (22yrs) old. This was accomplished (NC Stack file C.R. 005-928.3) NO.33. After Noah (his father) died in 1849 his mother (Chole) came (1850-51) to live with
her son Eugene. She died after 1860. The old Noah plantation was
rented out from 1850 until she died. It was appraised for taxes in
1860 for $40,000. Eugene plantation was appraised for taxes in 1860
for $75,000. They had many slaves caring for the fields and live
stock. They had to set them free after the Civil War. Many continued
to work on the farms. All children were born on the plantation,
outside of Canton, Madison Co, MS
