PREFACE

The utility of history is one of the most interesting fields of thought and action. That history is more than battle and carnage, politics and diplomacy, is today acknowledged by all intellectualists. It is trade; it is morals; it is life. Finance is one of the greatest elements in the making of history. Art is the embodiment of history itself. Painting, sculpture, music, poetry, are the epitomes of history. Just as all these make us our history, it is essential that we do not forget the perpetuation of the human race. May we not fail to keep our Lineage Records ever before us, never forgetting the true value of heredity.

Historian General.

same ancestor and whose lineage has been published in a former volume. This is done to link together
widely scattered families. If the number should be 4006, it will be in the fifth volume; if 5005, in the
sixth volume, etc.
