PREFACE
PREFACE.

This volume contains the National Numbers from 13,001 to 14,000, the records of 1,000 members admitted in 1896. During the six years that have elapsed so much has been published, genealogically and historically, embracing the Revolutionary period, that we have been able to correct many errors and gather additional facts for the records of the members.

It is our duty to make the Lineage Book a standard authority to follow a system of revision and correction which will in the end bring the best results. It is therefore wise to make haste slowly.
