In Re: The Estate of
Mrs. Laura B. Smith, deceased.

Dear Capt. Dinkins:

I'm in receipt of your letter of the 1st instant advising of the safe arrival of the "Lemuel Riddick" Bible sent to your good wife, given to her by Aunt Laura (Mrs. Laura B. Smith), as per her Will. I'm glad it arrived in good condition. I also acknowledge receipt of the receipt for this bible signed by Mrs. James Dinkins.

While I appreciate your offer to reimburse the cost of packing and the express charges on the Bible, but I feel it was my duty as Executor to pay the same, and your reimbursement would mix up my accounts.

Thanking you and with best wishes and kindest regards to you and your good wife, I remain,

Yours very sincerely,

ND Jofas held the feast of the passover in Jerusalem unto his Lord, and offered the passover the fourteenth day of the first month.

2. Having set the priests according to their daily courses; being arrayed in long garments, in the temple of the Lord.

3. And he spake unto the Levites the holy ministrers of Israel, that they should hallow themselves unto the Lord, to set the holy ark of the Lord in the house that king Solomon the son of David had built:

4. And said, Ye shall no more bear the ark upon your shoulders: now therefore serve the Lord your God, and minister unto his people Israel, and prepare you after your families and kindreds.

5. According as David the king of Israel prescribed, all according to the magnificence of Solomon his son: and standing in the temple according to the several dignity of the families of you the Levites, who minister in the presence of your brethren the children of Israel.

6. Offer he passover in order, and make ready the sacrifices for your brethren, and keep the passover according to the commandment of the Lord, which was given unto Moses.

7. And unto the people that was found there, Jofas gave thirty thousand lambs, and kids, and three thousand calves: these things were given of the kings allowance, according as he promised to the people, to the priests, and to the Levites.

8. And Hikias, Zacharias, and || Syelus, the governors of the temple, gave to the priests for the passover, two thousand and six hundred sheep, and six hundred calves.

9. And Jeorash, and Samaas, and Nathanael his brother, and Alshias, and Ochiel, and Jo-ram, captain over thousands, gave to the Levites for the passover, five thousand sheep and seven hundred calves.

10. And when these things were done, the priests and Levites having the unleavened bread, stood in very comely order according to the kindreds.

11. And according to the several dignities of the fathers before the people, to offer to the Lord, as it is written in the book of Moses, and thus did they in the morning.

12. And they roasted the passover with fire, as appertaineth: as for the sacrifices, they fed them in bras pots, and pans, || with a good savour.

13. And set them before all the people: and afterward they prepared for themselves, and for the priests their brethren the sons of Aaron.

14. For the priests offered the fat until night: and the Levites prepared for themselves, and the priests their brethren the sons of Aaron.

15. The holy fingers also, the sons of Aaph, were in their order, according to the appointment of David, to wit, Aaph, Zacharias, and Jeduthun, who was of the kings retinue.

16. Moreover, the porters were at every gate, it was not lawful for any to go from his ordinary service: for their brethren the Levites prepared for them.

17. Thus were the things that belonged to the sacrifices of the Lord accomplished in that day, that they might hold the passover.

18. And offer sacrifices upon the altar of the Lord, according to the commandment of king Jofas.

19. So the children of Israel which were present, held the passover at that time, and the feast of sweet bread seven days.

20. And such a passover was not kept in Israel since the time of the prophet Samuel.

21. Yea, all the kings of Israel held not such a passover as Jofas, and the priests and the Levites, and the Jews held with all Israel that were found dwelling at Jerusalem.

22. In the eighteenth year of the reign of Jofas was this passover kept.

23. And the works of Jofas were upright before his Lord, with an heap full of gold and silver.
II. Maccabees.

...trymen all his life, commanded to strike off Nicanors head, and his hand, with his shoulder, and bring them to Jerusalem.

31 So when he was there, and had called them of his nation together, and set the priests before the altar, he sent for them that were of the tower,

32 And shewed them vile Nicanors head, and the hand of that blasphemer, which with proud brags he had stretched out against the holy temple of the Almighty.

33 And when he had cut out the tongue of that ungodly Nicanor, he commanded that they should give it by pieces unto the fowls, and hang up the reward of his madness before the temple.

34 So every man praiised toward the heaven the glorious Lord, saying, Blessed be he that hath kept his own place undefiled.

35 He hanged also Nicanors head upon the tower, an evident and manifest sign unto all of the help of the Lord.

36 And they ordained all with a common decree, in no case to let that day pass without solemnity, but to celebrate the thirteenth day of the twelfth month, which in the Syrian tongue is called Adar, the day before Mardochaeus day.

37 Thus went it with Nicanor: and from that time forth the Hebrews had the city in their power. And here will I make an end.

38 And if I have done well, and as is fitting the story, it is that which I desired: but if fotherly and meanly, it is that which I could attain unto.

39 For as it is hurtful to drink wine or water alone: and as wine mingled with water is pleasant, and delighteth the taste: even so, speech finely framed, delighteth the ears of them that read the story. And here shall be an end.

The Gospel according to

S. MATTHEW.

CHAPTER I.

The genealogy of Christ from Abraham to Joseph: 1. He was conceived by the holy Ghost, and born of the virgin Mary, whom he was espoused to Joseph. 2. The angel satisfied the unwavering thoughts of Joseph, and interpreted the names of Christ.

The book of the generation of Jesus Christ, the son of David, the son of Abraham.

2. Abraham begat Isaac; and Isaac begat Jacob; and Jacob begat Judas and his brethren.

3. And Judas begat Phares and Zara of Thamar; and Phares begat Esrom, and Esrom begat Aram.

4. And Aram begat Aminadab, and Aminadab begat Naaman, and Naaman begat Salmon.

5. And Salmon begat Booz of Rachab; and Booz begat Obed of Ruth, and Obed begat Jesse.

6. And Jesse begat David the king; and David the king begat Solomon of her that had been the wife of Urias.

7. And Solomon begat Roboam; and Roboam begat Abia; and Abia begat Asa.

8. And Asa begat Josaphat; and Josaphat begat Joram; and Joram begat Ozias.

9. And Ozias begat Joatham, and Joatham begat Achaz; and Achaz begat Ezekias.

10. And Ezekias begat Manasseh; and Manasseh begat Amon, and Amon begat Josias.

11. And Josias begat Jechonias, and his brethren, about the time they were carried away to Babylon.

12. And after they were brought to Babylon, Jechonias begat Salathiel, and Salathiel begat Zorobabel.

13. And Zorobabel begat Abiud; and Abiud begat Eliakim, and Eliakim begat Azor.

14. And Azor begat Sadoc; and Sadoc begat Achim; and Achim begat Eliud.

15. And Eliud begat Eleazar, and Eleazar begat Matthan; and Matthan begat Jacob.

16. And Jacob begat Joseph the husband of Mary, of whom was born Jesus, who is called Christ.

17. So all the generations from Abraham to David, are fourteen generations: and from David, until the carrying away into Babylon, are fourteen generations: and from the carrying away into Babylon unto Christ, are fourteen generations.

18. Now the birth of Jesus Christ was on this wise: when as his mother Mary was espoused to Joseph, before they came together, she was found with child of the holy Ghost.

19. Then Joseph her husband, being a just man, and not willing to make her a publick example, was minded to put her away privily.

20. But while he thought on these things, behold, the angel of the Lord appeared unto him in a dream, saying, Joseph, thou son of David, fear not to take unto thee Mary thy wife: for that which is conceived in her, is of the holy Ghost.

21. And she shall bring forth a son, and thou shalt call his name Jesus: for he shall save his people from their sins.

22. Now all this was done, that it might be fulfilled which was spoken of the Lord by the prophet, saying,

An Appendix to the Second Table of Measures of Surface, described by Mofes, showing the Method of reducing them by Calculation to the Measures useful in England, for the benefit of those that understand Decimal Arithmetic, and desirous to apply the Reductions given in the Tables, or to make further Improvements in this kind of Measure.

I shall begin with Reduction of the Measures of the mensa, feet, which was God's Throne of Grace among the Jews, and 1, its Breadth one Cubit and 1. The Fracture adhering to its Length and Breadth, make some difficulty to beginners in Arithmetic, which the Decimal way doth much about.

Therefore, what I have elsewhere proved, that the Jewish Cubit was in Foot-measure 1,834. The Length shall be expressed in Foot-measure, and Decimals thereof, 4,160. The Breadth in like Measure will be 2,736. Wherefore the Product of those Numbers multiplied into each other, gives it Surface 12,451,616. In number of its square Feet, and Decimals thereof, 12 square Feet, and very near half a square Foot, if the Decimals had been 70, in the Table of the Tabernacle described, Exod. 27. 18. is found to be just half the Egyptian Arama, and to contain 1 Rood, at Pechers, 27 square Feet, &c.

V. The whole Known Quantity is determined, and reduced to our English measures, 3 Roods, 2 Pechers, 55 square Feet.

VI. The Suburb, or Glée-Land, given to each City of the Levites, Num. 35. 3, 4, 5, is found to be aerospace, on each of the four Sides of every City, containing a Million of Jewish square Cubits, or 100 Acres, which amount to in each Square of Acres, 1 Rood, 20 Pechers, 80 square Feet, &c. Whence we find that the Four Sides amounted to 305 Acres, 2 Roods, 1 Pecher, 71 feet square.

This Cattle, contains just 10 Quarters Avoirdupois of Rain water: Over 100: 1 Epha 1000: Chammer 10000. So that weights all these Measures of Capacity may be expeditiously recovered, &c very near exactness.

A Table of Scripture-Measures, Weights and Coins.

In the Arber of Indian Mafus the Jewish Square Cubit is reduced to our FootMeasure, as is said in the Fourth Paragraph. The Product of these Numbers will be the upper Surface of this Altar, 3326976, that is, three square Feet, and 3607959 Decimals of a Square Foot, which we may put by 3672 by 1286. Multiply their Decimals by 40, which is the Number of Perches in a Rod, the Product is 33299600, the Square Feet in a Rod, and the Quote Land 1095727, that is, three Roods, and 394264 Decimals of a Perch, or 39426400 square Feet, and 39426400 Decimals of a Square Foot, therefore I reject them as incomparable in measure of Land. By all these Reductions it is found that an Acre is in English Measures, three Roods, and 35 $^{3672}_{3672}$ square Feet. Hence it follows also that it is not well to talk of Perga- rum, for it is much larger, nor is it well in English called an Acre, for it is considerably less. To this place I refer the site of the after quoted Poem, the first verse of which is the following:

The Featt and Descrip determines yet it must conicide for the use- ful, and the product will be 499544, and it is near to 90 square Feet, for their Decimals amount to above 150 square Feet, and more than 100 square Feet would render it just 90 Feet, which L'Amour we need not here regard.

Let us now go to the measure of the Surface of the Land. But we will begin with the Court of the Tabernacle, the great which the Priests performed all the solemn Publick Worship of Is- rael in Mafus's time. The Area of this Court is described by Mafus, Exod. 26:18, by its Length 100 Cubits, and its Breadth by 66 Cubits. Whereat his Measure must be in Jewish Measure 9000 Square Cubits, for that it is the Product of 100 multiplied by 90. To reduce these 9000 Jewish Cubits into English Cubits, I multiply 9000 into 261290, The Product is 2353388,3 English Cubits. But in cases of such large numbers of Feet, we are to suppose that our Memories, to reduce them into Perches, or Rods, or Acres, which contain known Numbers of square Feet. A Perch contains 32 $^{3672}_{3672}$ square Feet, and a Rood is to 100 Perches, or 3200 square Feet. An Acre is 40 Roods, or 128000 square Feet. If the number 16554,88, has not integers equal to that of an Acre; but it is such as to answer those in a Rood, and some other number, I must divide 16554,88, by 100, which is 165,5488,8, or it fails, or it is a Rood. By such Division continued in the decimal way, until I have a Fraction of five or six Places, which is exact enough, I find the Quote to be $325737$, and thus divide 35164,88,8, and but once entirely in a whole Number: But it hath moreover in it many Decimal parts of a Rood. These therefore I reduce to the Perches contained in them, by multiplying the number of the whole Number by the number of Perches that make up a Rood, and cutting off the Places from the Product, which is $211048$, 3, and I find there are six Perches in it, and the Figures after the Decimal parts are $^{3672}_{3672}$ 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, and therefore I call them as incomparable in the measure of Land. This Method of Reduction by Multiplication of Deci- mals, is to be rather to the common man, and therefore I propose to be used by beginners in this Practice of Surveying. So I find this Court to contain in English Measure 1 Rood, 31 Perches, 27 Feet, and little more than half a Rod, or $32_{3672}$ a Rood. But referring upon Mafus's Measure by Cubits, and finding them to be precisely 9000 Square Cubits, we observed that they were just half 10000, which I had observed from Herod- a's Book in the Life of the Prince of the Jews, that the Land of the Jews was in Measure as ours is by Acrs and Rods. See Herod. 1. 2, and 168; I called also to mind a Fal- lacy in Manchester, an Egyptian Priest, cited by Tabitha's Book against Arian, where he affirms that Manetho in his History of the Reigns, Wars, and Expedition of the Pharaohs (whom Arian affirms to be Pharaohs of the Ciparissus, or Pharaohs israel), and the Peloponnesian War, and the Product of the Tabernacle to be just half an Acre, which is a known Measure to him, and his People, who had long dwelt in Egypt, and Divine Authority directed him so to do.

Now by Multiplication of 1824, into itself, I find the Product to be $332996000$, therefore I conclude that there are 332996000 square Feet in the Acre, and 70 Decimals of a square Foot in an Acre.
