My
HEISHMAN
Ancestors

by
James Bradley Heishman
This Book Is
DEDICATED TO
My Ancestors.
Who Made This Possible
and
My Relatives
May they learn to know and fully
Appreciate those who have gone before
That the family is an eternal unit is, to me, an indisputable fact. Our bodies of flesh and bones were created by our earthly parents in much the same way as our spirits were created by our Heavenly Parents.

Jesus Christ, under the direction of our Heavenly Father, "......created man in his own image, in the image of God created he him; male and female created he them." (Genesis 1:27)

Holy Scripture has made it perfectly clear that the human race was created in the image of our Heavenly Parents, thus totally refuting the various theories of evolution.

The Lord stated through his prophet Malachi:

"Behold, I will send you Elijah the prophet before the coming of the great and dreadful day of the Lord:

"And he shall turn the heart of the fathers to the children, and the heart of the children to their fathers, lest I come and smite the earth with a curse." (Malachi 4:5-6)

For me it has been a labor of love. Over ten years of diligent genealogical research has culminated in the production of this book. Through my research, I have come to know and love my forebearers.

INTRODUCTION

This book has been produced in order to preserve in a usable form the information that has been accumulated during the past ten years. The research process has taken me literally from coast to coast. This is the first of a series of four books about my ancestors. Each volume takes the surname of one of my grandparents and ties together all known ancestors and relatives.

It is not intended to be a historical sketch to trace emigration or migration patterns. When historical information has been obtained concerning a person or family, it has been included. I have endeavored to stick to the facts as I have found them.

To list every source of information in every place would be too cumbersome. At the end of each family group, a footnote or footnotes will be included that can be cross-referenced in the bibliography. Page numbers, chapters, volumes, etc. will be included in the footnotes and bibliography when it might prove helpful. None of the information contained in this book has been knowingly plagiarized.

A pedigree chart of the older generations has been used to graphically illustrate relationships of the early Heishmans. A number has been assigned to each name or family appearing on the pedigree chart as required to aid identification. The format used is my combination of those used by J. William Harpine in his book Heishman History and Ulysses P. Joyner, Jr. in his book Joyner Of Southampton.

There isn't any way to properly thank all those who have aided in the research process. So, I won't try. You know who you are and this work would not have been possible without you.

Complete accuracy would be almost impossible in the production of a work such as this. Every precaution has been taken to assure the validity of the information contained herein. However, the information is only as good as the original record or the data sent to me. Some relationships have been reached by a careful process of elimination based on time, place, etc.

THE HEISHMAN FAMILY

There may be several lines of the Heishman family in the United States of America. There has been on history of the family written, Heishman History by J. William Harpine. This book could not have been produced without the information contained in Heishman History.

There are a number of spellings suggested of the original name. They include: Heishman, Heischman, Hisghman, Hishman, Hijshman, Hychman, etc. Depending upon the spelling, the origin of the name is either German or Dutch. The preponderence of tradition, history and information indicates the origin to be German.

The older generations were hardworking farmers with probably no more than a basic education. I have not found any slave owners among the Heishmans. During the Civil War they fought for the Union.

They came into Pennsylvania. One story told to me indicates that the first Heishmans into West Virginia were on their way from Pennsylvania to North Carolina to obtain land and farm. When they reached Trout Run Valley, Hardy County, West Virginia by wagon train, the group contracted a serious disease. They set up housekeeping until the disease was controlled and by that time winter had set in. So, they stayed.

There are Heishman family groups in Ohio, Indiana and Iowa in large numbers. I have been able to tie the Ohio and Iowa lines to mine. Some of the Indiana Heishman are linked to the West Virginia Heishmans. However, some Indiana Heishmans may be from another German line of Heishman.

It is my belief that the original spelling of the name was Heishman. By far of the majority of the American Heishmans spell their name that way regardless of geographical location.

Joseph Haas HEISHMAN (See Family Group H-62a)
Born 15 Dec 1874 at Lost River, Hardy County, West Virginia. Family records, his death certificate, the family Bible and his gravestone indicate that he was born 12 Dec 1874. The entry in the family Bible was made some years after his birth. The discrepancy may have occurred because he was born some distance from the county seat and the information may have been recorded on 15 Dec 1874 when his father made his next trip to Moorefield, Hardy County, West Virginia. I have used the date 15 Dec 1874 since that is what is recorded in the civil records. He was a miller, salesman and inventor. Prior to the depression, he invented a machine to separate garlic from wheat and was paid $20,000. He died of a coronary occlusion 7 Jun 1952 at Staunton, Independent City, Virginia and was buried in the Mt. Jackson Cemetery, Mt. Jackson, Shenandoah County, Virginia. On 9 Nov 1897 at Woodstock, Shenandoah County, Virginia, he was married to:
