OSBORNE, LOHR, BUDD

AND KEENAN FAMILIES

MONROE CO., W. VA.

Compiled by

Rose Osborne Sell

Charleston-Kanawha, W. Va.

1914
Notes by compiler.

This chart was compiled by me from family records, statements of my father and mother, my own knowledge and recollections and information given me by several members of the families.

My object in placing it before my kinfolk is to share it with them, and to afford them the opportunity to correct such errors as may exist and to add such names and dates as are lacking.

It is trusted that some appreciation will be manifested and will be conveyed by communicating to me such corrections and additions so that future editions of this chart will be correct.

Abbreviations used —
B. = born
D. = died
M. = married
U. = unmarried

When no children are shown, or the death or marriage noted, means that I had no information as to the same. When the number (but not names) of the issue was known, they are marked by dashes following the parent.

A copy of this chart will be mailed (on roll) to any one on receipt of One Dollar, which covers the cost of the print and postage. The compiler would take pleasure in sending them gratis, only those who ought to have the chart that she feels unequal to the demand.

(All Others Omitted)
Plates by complete.

Only chart was completed, and made me from family records, stating that the family members had been known as such. The chart was placed on paper by selected members of the family.

The object was to create this chart as a basis for future events and to have them recorded. It is expected that the chart will be revised.

Observations used:
- Born
- Died
- Married
- Married again
Notes by compiler.

This chart was compiled by me from family records, statements of my father and mother, my own knowledge and recollections and information given me by several members of the families.

My object in placing it before my kinsfolk is to share it with them, and to afford them the opportunity to correct any errors as may exist and to add such homes and dates as are lacking.

It is hoped that some appreciation will be manifested and will be evidenced by communicating to me such corrections and additions so that future editions of this chart will be corrected.

Abbreviations used - B. - born
D. - died
U. - unmarried
When no children are shown, or the death of marriage, no children were born.

1914

Note
The military service of Peter Lohr is capable of such proof as to satisfy the requirement for admission of any of his descendants into the Society of the Sons (or) Daughters of the American Revolution.

The compiler of this chart will gladly give this information in detail if requested.
