These are some of the families that lived in West Virginia. Though not all family members lived in West Virginia. Many moved to Illinois, Indiana, Ohio, Kentucky, Tennessee, Missouri and other numerous states. But their family lines tie back to these West Virginian lines. They are the families that I have run into while doing the research on my own ancestors and their families. I have worked diligently in finding and compiling this information and although it is not 100% complete, it is as accurate and complete as possible.

Most of the information came from records in the Family History Library in Salt Lake City, Utah. I put the information together from many sources. The sources include: United States censuses, marriage licenses and bonds, birth and death records, probate records, and cemetery records.

The U.S. census is only available until 1920. As a result, some of the families may have had more children added after 1920. The 1890 census was burned so no records are available in that year. The children are in the order they appeared on the census. In cases where the information is conflicting I have listed both sets of information. Censuses have been known to have errors so this information cannot be guaranteed although it is generally accurate. To eliminate the margin of error in the census', where possible I have checked this information against other sources to prove or disprove the census information.

This book is designed to enable you to find your family lines. The families that were closely researched are in alphabetical order to enable easy location. In the back of the book there is a name index for searching for people who married into the researched families. In families where no children were known then there will be no further family listing.

When you are reading a family’s story and are wanting further information on a particular person. Simply look for the name in alphabetical order if it is a son. If the person is a daughter look for her husband's name. In some cases you will also be able to look up the information on the parents of the family’s parents. By doing so you may be able to go back several generations using this book.

In some cases there may be more information to be found. This is in no way this is the final authority on these families, rather it is designed to give you a place to start your own research. I hope it brings you success.

In the case of mistakes please let the author know. I have tried my best to eliminate mistakes but invariably some will have occurred. Documentation is available but would take too much room to publish in this book. Please write to the author and documentation will be provided for no more than two people, for three or more a small fee will have to be assessed. For more information or corrections please contact me at (801)964-0762 or write to: Beckie Rawdon, 4042 Latimer Drive, West Valley City, UT 84120.
